1. Summary

- 1.1 Best practice within LGPS funds is to annually set objectives for the fund, the agreeing of the resources necessary to attain those objectives and a definition or measurement mechanism for success.

2. Issues for consideration

- 2.1 Committee are required to set objectives for the 2019-20 financial year for the fund, agree the resources required to meet the objectives and agree criteria by which attainment of the objectives can be measured. To this end committee are asked to:
 - Agree a fund financial projection for the 2019-20 financial year.
 - Review the absolute return target for the investment return of the fund.
 - Consider defining criteria for measuring the success in meeting the committee's objectives for the year.
 - Consider the resources committee requires to meet their objectives for the year.

3. Background

- 3.1 As part of it paper "Investment Decision Making and Disclosure in the Local Government Pension Scheme – A Guide to the Application of the Myners Principles" CIPFA indicated 92 key themes that LGPS funds should consider spread across 6 principles.
- 3.2 A number of these themes are around the setting of objectives, both for the fund as a whole and for the activity of the Pensions Committee. In setting objectives the Committee need to consider the necessary resources needed to reasonably meet those objectives and define how success is to be measured.

4. Fund Objectives

4.1 The funds overall objectives are stated in the Funding Strategy Statement and are:

- Set levels of employer contribution that will build up a fund of assets that will be sufficient to meet all future benefit payments from the Fund.
- Build up the required assets in such a way that employer contribution rates are kept as low and stable as possible.

How each of these aims is to be achieved in broad terms is explained in the Funding Strategy Statement.

4.2 The delivery of constant employer rates and management of liabilities is undertaken in collaboration with the Fund's actuary and centres around the tri-annual valuation process.

4.3 In order to ensure that sufficient resources are available to meet all liabilities as they fall due over the next 12 months, and the costs associated with this aim and the running of the fund in general are managed, a draft financial projection has been produced for the 2019-20 financial year and is attached as appendix A. Committee is asked to review the draft financial projection and approve its adoption subject to any amendments they agree on.

4.4 The maximisation of investment return within reasonable risk is achieved through the management of the investment fund, principally through the creation of the Investment Strategy Statement. To measure the performance of the fund we have a fund specific benchmark that we aim to outperform. Performance of the fund relative to this benchmark is monitored and disclosed quarterly to the committee in the standard performance report, it is proposed that this continues. CIPFA's key themes also state that it is good practice for the fund to set an absolute return target for the fund. Since the discount rate utilised by the actuary is in effect the investment return needed by the fund to achieve the objective of full funding within the deficit recovery period it would be sensible to set an absolute return target consistent with the discount rate. The discount rate used in the 2016 valuation results is 5.4% pa. The current adopted target is 5.4%.

5. Committee Objectives

5.1 The committee's objectives for the forthcoming year are highlighted within the Committee business plan and forward work plan. As part of the business plan update (item 9) committee will reaffirm the objectives set within the business plan.

5.2 Committee are asked to consider how it will assess its performance in meeting

the objectives of the business plan. This may involve setting criteria against which success can be measured.

6. Resources

- 6.1 Committee are asked to consider the resources that they as a committee require to meet the needs of the business plan and work plan. This assessment should include consideration of training needs, facilitation time and whether sufficient formal meeting time is available within the work plan to deliver the objectives.
- 6.2 The Committee is committed to 4 formal meetings a year. There is a presumption of at least one informal meeting or training session per year and officers believe they have the resources to support further meetings should Committee request them.
- 6.3 Benefits administration is provided by Peninsula Pensions, a shared service with Devon CC.
- 6.4 The Investments team of Somerset CC provide investment administration and accounting for the fund along with the bulk of the support of Committee and Pension Board. Currently 2.6 full time equivalent (FTE) employees are charged to the fund and this is currently deemed appropriate by the managers involved. This level of resource was reduced by 1 FTE in July 2018 following the movement of investment funds to Brunel and will continue to be reviewed as more funds move to Brunel.
- 6.5 1 FTE in the Somerset CC corporate accounting team is charged to the fund to cover accounting for benefits and contributions.
- 6.6 Additional support of the Committee and Pension Board is provided by the Community Governance team, specifically the arrangement and support of formal Committee and Board meetings.

7. Consultations undertaken

None

8. Financial Implications

- 8.1 Over time the performance of the pension fund investments will impact the amount that the County Council and other sponsoring employers have to pay into the fund to meet their liabilities. The fund actuary calculates these amounts every three years and sets payments for the intervening periods. The next assessment is currently underway.

9. Background Papers

None
