

Somerset County Council

Business Plan 2019-20

DRAFT

Welcome to our Business Plan for 2019/20

This is Somerset County Council's Business Plan for 2019/20. It outlines how we will work with partners and communities to deliver the County Council's 'Vision for Somerset' in the most efficient way possible for Somerset's taxpayers.

The County Council Vision

Our Vision is all about improving lives in Somerset by creating:

- A thriving and productive County that is ambitious and confident.
- A County of resilient, well-connected and compassionate communities working to reduce inequalities.
- A County where all partners actively work together for the benefit of our residents, communities and businesses and the environment in which we all live.
- A County that provides you with right information, advice and guidance to help you help yourself and directs support to those who need it most.

Our Business Plan explains how we will work towards this Vision over the next three years. We will review the Plan every year to keep it up to date.

Delivering the County Council Vision

What the Council does is about making the most of the County's strengths by working together and being prepared to do things in different ways: We don't just 'fix problems'.

To deliver the Vision, we will:

- Help people to help themselves.
- Direct our resources to where they are needed most.
- Work with all our partners.

The people of Somerset have also told us what our priorities should be, which are reflected in the Vision and this Business Plan:

- Helping vulnerable and elderly people.
- Investing in Somerset's economy and infrastructure.
- Attracting jobs and more apprenticeships.

Our strengths: What Somerset has to offer

Somerset boasts significant strengths. These are a strong foundation on which to improve lives in the county:

- Our economy is worth £11bn, the same size as Liverpool or Sheffield.
- Somerset has low unemployment and a mixed economy.
- We have many good schools.
- SCC works well with our partners. They consider us a 'partner of choice'.
-
- We have a fine natural environment and rich cultural heritage.

- A wide range of voluntary and community organisations contribute immensely to residents' wellbeing.

Somerset's challenges

Despite our strengths Somerset has challenges to overcome:

- Economic productivity that remains below the national and regional average.
- Poorer levels of public sector funding compared to other areas.
- Meeting the needs of a growing and ageing Somerset population.
- Inequalities in:
 - Educational outcomes.
 - Economic opportunity.
 - Access to services.
 - Life chances and aspirations.
- The need for more housing and infrastructure.
- Many people and communities remain digitally excluded or unable access fast and reliable broadband coverage.
- Many people suffer from poor physical or mental health and wellbeing.

The Council's own challenges and drivers

To be properly equipped to deliver, the Council has to understand its own drivers:

- We must always put our residents at the heart of everything we do.
- We have responsibilities across a range of partnership strategies:
 - [Improving Lives Strategy](#)
 - [Heart of the South West Productivity Strategy](#).
 - [Somerset Health and Care Strategy "Fit for the future"](#).
 - [Adults' Promoting Independence Strategy](#).
 - [Children and Young People's Plan](#).
 - [Somerset Growth Plan](#).

And challenges...

- The uncertainty over the future of Local Government Funding (Fairer Funding Review (FFR), Business Rate Retention (BRR), Spending Review) makes future funding planning less certain than for the last four years.
- Continuous improvements to our Children's Services to get to 'good'.
- The Council has a wide range of statutory responsibilities which we must meet.

Why a Business Plan?

The Business Plan says what the Council will do to deliver its Vision. The key to success is working with all our partners and making use of the County's many strengths and assets.

- It will focus our work on achieving better outcomes for our residents and communities.
- It helps us be informed when having to make difficult choices at a time when we have fewer resources than ever before and increasing demand for our services.

- It shows our partners precisely what our objectives are and what we are doing to achieve them.

The Business Plan also says how we will develop the capacity and capability we need.

To make the most of Somerset's strengths we will:

- Work with individuals, communities, providers, businesses, other public, voluntary and community sector organisations. We want to work collaboratively and be their partner of choice.
- Work to retain the talent that we have in the County whilst attracting the additional expertise and resources that our economy needs.
- Work with businesses to grow and develop our economy.
- Promote Somerset as a great place to live and work.

To address Somerset's challenges, we will...

- Continue to focus on prevention and early intervention.
- Work across health and care to promote people's independence and reduce unnecessary demand on services.
- Protect vulnerable children and adults and support them to achieve their potential.
- Work with our partners to provide the physical, digital and employment infrastructure that our economy and communities need.
- Work to create a County where people can aspire and achieve without being held back by their background or circumstances.
- Work with health partners and the police to tackle mental and emotional wellbeing issues and the harm they cause.
- Demonstrate Social Value and Value for Money in all that we do.

Meeting the Council's challenges

The Council must be confident, capable and financially sustainable if it is to deliver the Business Plan. So that we are equipped to deal with the challenges and grasp the opportunities ahead, we will:

- Address our financial challenge, ensure the council lives within its means.
- Make sure our internal financial and decision-making processes continue to be robust. Focus on 'getting to good' in Children's Services.
- Continuously develop and improve the way we work, find better ways of doing things and embrace new technology.
- Work with partners and communities.
- To improve outcomes, we need to make better use of high-quality information and data.

To achieve this the Business Plan sets three organisational development priorities for the Council.

- Organisational Redesign.
- Our culture and approach.
- Become a digital- and technology-enabled council.

- Effective and resilient delivery.
- Reduce demand for high-cost services.

Everyone in the Council has a responsibility to consider and reflect the Business Plan in their service planning, budget setting and performance management. Everything in the Business Plan is subject to availability of funding and our decision-making processes.

DRAFT

Delivering the County Council Vision: our Plan for 2019-20

The Business Plan contains four strategic outcomes that show what the Council will focus on to deliver its Vision and improve lives. Beneath each strategic outcome sits four key priorities and a range of activities. By lining up these activities, priorities and strategic outcomes with the Vision we can plan ahead, monitor progress and above all ensure that we are working within our financial means.

The Business Plan shows our strong ambitions. This means that some activities are aspirational, and funding will need to be secured and formal decisions taken before they can begin.

A county infrastructure that drives productivity, supports economic prosperity and sustainable public services	Safe, vibrant and well-balanced communities able to enjoy and benefit from the natural environment	Fairer life chances and opportunity for all	Improved health and wellbeing and more people living healthy and independent lives for longer

Delivering the Business Plan

Everything we do must support delivery of the activities, priorities and strategic outcomes in the Business Plan. If not, we must ask ourselves whether what we are doing is necessary.

Service Planning

The Business Plan has a key role in Service Planning. It creates a 'golden thread' from the Vision to individual Service Plans and performance management.

High-level measures for each priority will show how success will be seen at a strategic outcome and priority level. Service Plans identify specific metrics for each activity or intention. The diagram below shows the relationship between the Business Plan, performance management and service planning.

Using the tools available to us

There are a wide range of strategies, tools and approaches that support and guide all that we do. This diagram shows the strategic context that we work in, and the key capacity and capability tools that should be used to design and deliver the most appropriate services – including finding ways for a service to be provided in the community.
