

Report to the NHS Somerset Clinical Commissioning Group on 6.6.18

Title: BSW Maternity Transformation Plan	Enclosure = 1
---	----------------------

Version Number / Status:	1.0
Executive Lead	Lucy Baker – Acting Director of Acute Commissioning, Wiltshire CCG, Programme Director for Maternity, BSW STP
Clinical Lead:	Sarah Merritt – Head of Nursing and Midwifery, RUH Bath
Author:	Lucy Baker –

Summary and Purpose of Paper –

This paper is to update Somerset CCG on the BSW LMS.

- Nationally led improvement work e.g. Better Births.
- Local drivers – LMS Transformation Plan, RUH Maternity Services Redesign.

Recommendations and next steps

The vision of the LMS is that “All women to have a safe and positive birth and maternity experience, and be prepared to approach parenting with confidence”

Key aims of the LMS Maternity Transformation Programme are:

- Improved outcomes and experience across STP.
- Continued delivery of a safe and consistent service.
- Parity of access.
- Value for money.
- Improve maternal health and support transition to parenting.

To provide an update on planned public consultation commencing September 2018.

Impact Assessments – key issues identified

Quality	Proposed impact of improved quality of maternity services aiming to meet the key deliverables of the National Maternity Transformation and Better Births agenda.
Privacy	Service Configuration updates are confidential
Engagement	Significant informal engagement has taken place with stakeholders, providers and service users. Planned formal consultation to commence September 2018
