

Vision for the Somerset Waste Partnership

Who we are

Somerset's Local Authorities working together as the Somerset Waste Partnership, ensuring that our household waste is reduced, collected, reused, recycled and effectively treated.

What we do

To preserve our environment by making every effort to ensure our household waste is not wasted but reused as a valuable resource. Deliver excellent customer service and value for money to create a more sustainable Somerset.

What we are aiming to become

An exemplar for how we manage waste as a resource, work with others and support our residents to manage their household waste and make our service the best it can be.

What we value

Collaboration

Treating everyone we work with as an equal, knowing we have greater success when we work together.

Focusing on excellent customer service and making the best use of the waste we collect.

Working with our partners to understand how and why people behave as they do and use this knowledge to shape our service.

Learning from others and constantly looking at new ways of working to give the best service we can.
