Analysis of impact on protected groups

The Public Sector Equality Duty requires us to eliminate discrimination, advance equality of opportunity and foster good relations with protected groups. Consider how this policy/service will achieve these aims. In the table below, using the evidence outlined above and your own understanding, detail what considerations and potential impacts against each of the three aims of the Public Sector Equality Duty. Based on this information, make an assessment of the likely outcome, before you have implemented any mitigation.

Protected group	Summary of impact	Negative outcome	Neutral outcome	Positive outcome
Age	<p>People will benefit from the overall investment in council housing.</p> <p>The increased choice of affordable housing type, size and tenure provides housing options for all age groups.</p> <p>Improvements in energy efficiency will help to protect tenants, whatever their age or the hardships they experience, from fuel poverty.</p> <p>The rent setting policy and the increase to fees and charges will be applied across our housing stock. This increase in the gross rental charge for existing tenants and new tenants moving into our housing will have a neutral effect on protected groups. The cost rise to tenants is a relatively modest one and follows four years of rent reductions for tenants. The rise will enable the council to continue to provide an excellent range of services.</p> <p>Note: A total of 3,265 (58%) of our existing tenants are in receipt of help with housing costs i.e. Housing Benefit or Universal Credit.</p> <p>The impact of both investment prioritisation and improvements to service delivery need to be assessed in more detail as part of an annual planning process in order to identify more precisely the potential for both negative and positive of the business plan on this specific group.</p>	□	⊗	⊗
