### Risk Review Update

Review Summary: Report to 15 January 2024 Executive shows the reduced budget gap to £37.9m. To balance the budget DLUHC have been approached to increase council by an additional 5% which would generate additional income of £17.1m. In order to balance the budget, DLUHC would need to approve a Capitalisation Direction. This would be for £37.9m or reduced down to £20.8m if that if the additional 5% on council tax is approved.

Strategic Risk 2023 - Sustainable MTFP: There is a significant risk that the forecast costs of council services for 2024/25 and future years, exceed the resources available resulting in a significant budget gap. In February 2023, the budget gap was estimated to be £100m over the next 3 financial years from 2024/25 to 2026/27. It is estimated that the overall level of reserves held by the new Council is around £100m. Updated on 29/11/2023 11:15:52

**Risk Review Update**

Review Summary: During December CHSU has interviewed for x4 positions, x1 Safety Officer, x2 Senior Safety Officers, and X1 Principal Safety Officer. X3 appointments made, interviews for the Principal Officer role will take place 21/12/2023. The recruitment is the immediate action being taken to address resignations and stabilise the service. Conversations with our internal audit partners SWAP to discuss the audit findings will take place in January. The proposed service restructure is with Alyn Jones for review, further conversations will take place in the new year following the conclusion of the ongoing recruitment exercise.

Strategic Risk 2023 - Health and safety management, strategic planning and direction is not embedded across the Council, including Maintained Schools, resulting in a fragmented management system with increased risk to staff, contractors, and members of the public. Updated on 17/11/2023 16:12:25

Risk Description - uncertain event that has effect on objectives	Cause of the risk	Consequence of the risk - which would lead to	Current Risk Assessment	Controlled Risk Assessment									
<b>ORG0070</b> Strategic Risk 2023 -Budget Overspend: - A significant budget overspend in current financial year (2023/24) that would be have to be funded from council reserves reducing them to dangerously low levels. The	The drivers of the potential overspend include: - * Rising interest rates - impacts upon the cost of borrowing and the inherited short-term borrowing for longer term investments by predecessor councils * Labour Market - increasing in pay costs through national pay awards, national living wage and recruitment difficulties pushing up the costs of temporary staffing * Demand - Increase in demand and complexity particularly in social care * Inflation - 40-year high inflation costs impacting upon a whole range of services and costs * Economic environment - High energy costs, cost of living crises	Any potential overspend needs to be managed by the responsible Service Director and will require them to take corrective actions to avoid a potential overspend. If a Service is not able to address this by itself then the Executive Director will take action to address that across their area of responsibility. Only if they are unable to address the situation will it require corporate action by ELT. Ultimately if the situation is not able to address then the overspend will need to be funded from Reserves. The level of Reserves held by the Council is finite and at the lower end of scale for a council of its size and risk profile.	Red - V. High Risk <span style="background-color: red; color: white; padding: 2px;">25</span>	V. Low Risk <span style="background-color: green; color: white; padding: 2px;">6</span>

**Risk Review Update**

Review Summary: Month 7 report has improved with the overall variance being reduced down to £18.3m overspend from £26.8m in Month 3. The various control board and panels are having a positive impact. The format for the monthly report has been revised and continues to be refined.

Strategic Risk 2023 -Budget Overspend: - A significant budget overspend in current financial year (2023/24) that would be have to be funded from council reserves reducing them to dangerously low levels. The 2023/24 budget set the minimum level of General Reserves to be in the range of £30m to £50m reflecting the councils current risk environment. Updated on 04/12/2023 14:51:14

**Risk Review Update**

Review Summary: The Quality Performance and Review (QPRM) meetings have recently been reviewed by the management team and continue to meet regularly. An Education QPRM meeting has been established that addresses concerns about individual school performance and outcomes for children. The System Quality and Review Meetings (QSRM) with the CEO, DCS and Lead Member for Children’s Services continue to take place regularly and now involve the leader of the Council. The QPRM meetings continue to ensure that Directors and Managers review quality and performance in relation to the delivery of service and provide an opportunity to analyse themes and jointly resolve issues.

For Children’s Social Care and Education an annual conversation takes place with Ofsted to review performance data and practice activity.

The reputational issues arising from the Financial Emergency could impact Somerset Council's attractiveness as an employer affecting the recruitment and retention of Social Workers. If we fail to recruit and retain Social Workers, the service will struggle to meet it's statutory duties and legal obligations in relation to vulnerable children. Updated on 19/04/2023 15:44:51

Strategic Risks - SC(Executive Directors)

**Risk Review Update**

Review Summary: People living in Somerset have told us that they want to remain living as independently as possible in their own homes, which has led us to develop the market to support this. We have worked closely with our vibrant volunteer and community sector, domiciliary care sector and our micro providers to help people live independently in their own homes for as long as possible and have been careful with our spending to ensure the best possible value for money. Despite this, numerous factors beyond our control have contributed to rising costs and a challenged care market:

- Care providers have had to raise their prices due to increased running costs, with rising costs for food, fuel, heating and electricity, and interest rates. Our residential care placement costs have risen from around £577 per week in 2022/23 to £850 per week. This is a huge increase of over 47%.
- Demand for care has increased, with the average person receiving care in their own home now needing 14 hours per week at the time of writing, compared to 12 hours per week in 2021/22. This is an increase of 16%.
- Planned reforms have been paused, meaning we have not received the full amount of money originally allocated to fund the fair cost of care exercise.

Levels of unmet home care need continue to be sustained at very low levels as of end of December 2023, despite demand for home care remaining significant. We are currently in a position where provision outstrips demand, meaning we are not currently accepting any new home care providers onto our procurement framework. Care package contract handbacks from home care providers have also significantly reduced when compared with recent years suggesting a stabilisation in the market, and the quality of community-based provision (as judged by the Care Quality Commission as the independent regulator) continues to exceed that of residential-based provision and compares well to national averages. However, bedded (residential) placements are providing harder to source due to challenging market conditions.

The service is preparing for new CQC regulatory assessment, which encompasses duties in relation to market shaping, and has actively contributed to wider Council activity associated with the financial emergency, including MTFP challenge sessions and scrutiny of our activity and performance in this space, and the submission of savings proposals. We have commissioned an LGA Assurance peer challenge for early March 2024 which will further scrutinise our delivery of statutory duties in relation to commissioning and market shaping

Risk Review Update

Review Summary: We are now four months into the design phase of the ASC 'My Life, My Future' transformation Programme. All five programme workstreams are now live, and some have established trials to test new ways of working across our services. Some encouraging early results are evident; we are seeing 10% more people finishing reablement per week across the county, enabling them to have lower long term care needs. This is a 20% improvement in our trial team in Taunton & West Somerset, achieved through supporting providers with processes for rigorous progression of cases. We have also seen a reduction in Older Adults residential starts across the county to a rate better than our target. We will continue to monitor this to ensure that this change sustains. Good financial tracking is in place across most areas of the programme and can effectively monitor trial and wider progress, allowing us to react quickly to emergent changes. There are some risks to maximising progress and meeting the projected benefit timelines, particularly around specific resource constraints in some service areas and in the Council's data engineering & business intelligence teams. In recognition of wider council challenges and pressures, we are continuing to challenge programme and workstream plans to bring as much as possible forward to support savings delivery. Fortnightly MLMF Finance and Performance meetings in place, alongside a Steering Group meeting to support routine progress monitoring, risk and activity, and contract monitoring meeting. Regular reporting up to Council's TTC Board and Scrutiny Committee - detailed update papers were presented to 7th December Adults & Health Scrutiny (in public domain).
