4P – prepare, prevent, protect, pursue – a nationally recognised policing strategy for dealing with crime.

Action Fraud – is the UK's national reporting centre for fraud and cybercrime where victims should report fraud if they have been scammed, defrauded or experienced cyber crime in England, Wales and Northern Ireland.

ASP – Avon and Somerset Police

Charge – the formal accusation of an offence, put to a suspect after an initial investigation; this is the start of the prosecution and they will then have to appear at court. [The police can make the decision to charge in less serious offences where the case would be dealt with at Magistrates Court.](#)

Clear Hold Build – a framework for bringing the tackling of serious and organised crime threats into neighbourhood policing. It also involves partners and the community in delivering and sustaining reductions in serious organised crime and related crime.

County lines – is a term used when drug gangs from big cities expand their operations to smaller towns, often using violence to drive out local dealers and exploiting children and vulnerable people to sell drugs. These dealers will use dedicated mobile phone lines, known as 'deal lines', to take orders from drug users.

Cyber dependent crime – these are offences that can only be committed using a computer, computer networks or other form of information communications technology.

MSG – [Most similar groups](#). These are groups of police forces that have been found to be the most similar to each other based on an analysis of demographic, social and economic characteristics which relate to crime. They are designated by Her Majesty's Inspectorate of Constabulary Fire & Rescue Service (HMICFRS). The forces 'most similar' to Avon & Somerset are Derbyshire, Essex, Hampshire, Hertfordshire, Kent, Staffordshire and Sussex.

Multi-agency risk assessment conference (MARAC) – meetings where organisations work together, sharing information on the highest risk domestic abuse cases, to create a coordinated plan to safeguard the victim.

Neighbourhood Crime – defined in the national [Beating Crime Plan 2021](#) as vehicle-related theft, domestic burglary, theft from the person and robbery of personal property.

Operation Soteria Bluestone – transforming the response to, and investigation of, Rape and Serious Sexual Offences to be victim-centred, suspect-focused and context-led.

Problem profile – research and analysis of established and emerging crimes or incidents, priority locations or other identified high-risk issues. Should be based on a range of information sources, including information from partner organisations, and contain recommendations for making decisions and options for action.

Problem Solving Plan – an approach which assumes that identifying and understanding the root causes of a problem – or conditions that allow it to continue – leads to an effective solution.

RASSO – rape and serious sexual offences.

SARA – scanning, analysis, response, assessment – a model of problem solving.

Serious violence – defined nationally these are offences that result in the death of a person, "endanger life" or "wounding offences".

1. Operation Trespass is a national operation supported by the National County Lines Coordination Centre and South West Regional Organised Crime Unit. It allows for identification of vulnerable victims that have or are likely to be cuckooed and then used in the supply of drugs through the county lines approach. Multi agency working and intelligence sharing through Serious Organised Disruption panels assists with the arrest and disruption of offenders, whilst safeguarding and protecting the vulnerable with partner agencies, achieving 4 P plans of Pursue, Prevent, Protect and Prepare.

Drug Trafficking Crime - 12 Month Rolling Rates per 1000 Residents

Drugs and County Lines Disruptions - 12 Month Rolling Rates

Comments

1. In 2021 there were 617 recorded drug trafficking offences. This has reduced by a third to 415 in 2024. However, when looking at the number of arrests for drug trafficking offences there has been a marginal increase from 944 in 2021 to 961 in the last year. This data supports the hypothesis that the reduction in drug trafficking recorded crime is as a result of poor crime recording rather than a reduction in proactive policing.
2. In the year ending December 2024 there were 185 drug trafficking disruptions recorded by ASP, of which 97 related to County Lines.

Better Criminal Justice Outcomes for Rape Cases

Rape - Charge & Summons Volume and Rate - 12 Month Rolling

3. Delivery of a new Frontline Responder to Sexual Offences course for all Patrol Officers alongside a new module on non-contact sexual offending.
4. Development of the RASSO Perpetrator Focus Panel to identify and disrupt high risk offenders. The aspiration is for the identification to be supported by a machine learning model and to bring partner organisations onto the panel.
5. Completion of the RASSO problem profile.

Comments

1. There has been a sustained improvement in the number and volume of charge and summons since the end of 2021. This is directly attributable to Bluestone/Soteria.
2. There has been a recent increase in the volume of rape offences recorded and finalised by ASP – this is attributable to improved crime recording. The effect of this is that an increase in charges does not result in an equivalent increase in the rate. In the year ending December 2024 225 charges was a rate of 7.6%, in the previous year 142 charges was a rate of 7.5%.
