This paper provides the Audit Committee with a report on progress in delivering our responsibilities as your external auditors.

The paper also includes:

- a summary of emerging national issues and developments that may be relevant to you as a local authority; and
- includes a number of challenge questions in respect of these emerging issues which the Committee may wish to consider (these are a tool to use, if helpful, rather than formal questions requiring responses for audit purposes)

Members of the Audit Committee can find further useful material on our website, where we have a section dedicated to our work in the public sector. Here you can download copies of our publications [www.grantthornton.co.uk](http://www.grantthornton.co.uk).

If you would like further information on any items in this briefing, or would like to register with Grant Thornton to receive regular email updates on issues that are of interest to you, please contact either your Engagement Lead or Engagement Manager.

# Progress at July 2021

## Financial Statements Audit

We issued our Audit Opinion on the 2019/20 financial statements on 30 March 2021.

We have now completed our audit planning for the 2020/21 financial year for the Council and the Pension Fund.

Our Audit Plans for these two audits were issued in June 2021 and are on the July Audit Committee agenda. These two documents set out our proposed approach to the audit of the Council's and Pension Funds 2020/21 financial statements.

The Accounts and Audit (Amendment) Regulations 2021 push back the date by which principal authorities need to publish their draft financial statements to the first working day of August. In 2020 this date was pushed back to 31 August. The date by which authorities are required to publish audited financial statements is 30 September. In 2020 this date was pushed back to 30 November 2020.

We have commenced the audit of the Pension Fund and are due to start the audit of the Council's Financial Statements in late August.

We will report the results of our work in the Audit Findings Report and aim to give our opinion on the financial statements by 30 November 2021.

## Value for Money

The new Code of Audit Practice (the "Code") came into force on 1 April 2020 for audit years 2020/21 and onwards. The most significant change under the new Code is the introduction of an Auditor's Annual Report, containing a commentary on arrangements to secure value for money and any associated recommendations, if required.

The new approach is more complex, more involved and is planned to make more impact.

Under the 2020 Code of Audit Practice, for relevant authorities other than local NHS bodies auditors are required to issue our Auditor's Annual Report no later than 30 September or, where this is not possible, issue an audit letter setting out the reasons for delay.

As a result of the ongoing pandemic, and the impact it has had on both preparers and auditors of accounts to complete their work as quickly as would normally be expected, the National Audit Office has updated its guidance to auditors to allow auditors to postpone completion of our work on arrangements to secure value for money and focus our resources firstly on the delivery of our opinions on the financial statements. This is intended to help ensure as many as possible could be issued in line with national timetables and legislation. The extended deadline is now no more than three months after the date of the opinion on the financial statements. We will aim to complete our VFM work by 30 November 2021.

# Progress at July 2021 (cont.)

## Other areas

### Meetings

We met with Finance Officers in May 2021 as part of our quarterly liaison meetings and continue to be in discussions with finance staff regarding emerging developments and to ensure the audit process is smooth and effective.

### Events

We provide a range of workshops, along with network events for members and publications to support the Council. Your officers attended our Financial Reporting Workshop in February 2021, which helps to ensure that members of your Finance Team are up to date with the latest financial reporting requirements for local authority accounts.

Further details of the publications that may be of interest to the Authority are set out in our Sector Update section of this report.

## Audit Fees

During 2017, PSAA awarded contracts for audit for a five year period beginning on 1 April 2018. 2020/21 is the third year of that contract. Since that time, there have been a number of developments within the accounting and audit profession. Across all sectors and firms, the Financial Reporting Council (FRC) has set out its expectation of improved financial reporting from organisations and the need for auditors to demonstrate increased scepticism and challenge and to undertake additional and more robust testing.

Our work in the Local Government sector in 2018/19 and 2019/20 has highlighted areas where financial reporting, in particular, property, plant and equipment and pensions, needs to improve. There is also an increase in the complexity of Local Government financial transactions and financial reporting. This combined with the FRC requirement that all Local Government audits are at or above the “few improvements needed” (2) rating means that additional audit work is required.

We have reviewed the impact of these changes on both the cost and timing of audits. We have discussed this with your s151 Officer including any proposed variations to the Scale Fee set by PSAA Limited.

The fees for 2020/21, including proposed variations are included in the Audit Plans on this agenda.

As a firm, we are absolutely committed to meeting the expectations of the FRC with regard to audit quality and local government financial reporting.

# Audit Deliverables

# Sector Update

Authorities continue to try to achieve greater efficiency in the delivery of public services, whilst facing the challenges to address rising demand, ongoing budget pressures and social inequality.

Our sector update provides you with an up to date summary of emerging national issues and developments to support you. We cover areas which may have an impact on your organisation, the wider local government sector and the public sector as a whole. Links are provided to the detailed report/briefing to allow you to delve further and find out more.

Our public sector team at Grant Thornton also undertake research on service and technical issues. We will bring you the latest research publications in this update. We also include areas of potential interest to start conversations within the organisation and with Audit Committee members, as well as any accounting and regulatory updates.

# Insight into accounting for grants in local government financial statements – Grant Thornton

The government has provided a range of financial support packages throughout the COVID-19 pandemic.

We have issued a brief bulletin aimed at helping local government bodies identify the key things they should consider when determining the accounting treatment for these grants in their financial statements for 2020/21.

There are no changes to the accounting treatment for grants as required by the CIPFA Code of Practice on Local Authority Accounting. What has changed, is the extent of additional funding to support the cost of services, to offset other income losses along with grant packages to be paid out to support local business. Local authorities need to consider the nature and terms of the various COVID-19 measures in order to determine whether there is income and expenditure to be recognised in the Comprehensive Income and Expenditure Statement in 2020/21.

The report highlights the factors to consider, including:

- Where the funding is to be transferred to other parties, is the authority acting as principal or as agent?
- Are there grant conditions outstanding?
- Is the grant a specific or non-specific grant?

Our bulletin provides you with links to further information on the various support packages and summarises features that may be relevant to your judgements as you determine the appropriate accounting treatment.

Local authorities need to demonstrate their judgements on the accounting treatment to be reasonable and soundly based and, where these have a significant effect on the accounts, to ensure they include sufficient disclosures to meet the requirements of IAS 1:122.

Please ask your audit manager for the full report:

# What can be learned from Public Interest Reports? – Grant Thornton

2020 will be remembered as a tumultuous year in local government, with the pandemic creating unprecedented pressure on the sector. It also saw the appearance of two Public Interest Reports (PIRs), followed by another in January this year – the first to be issued in the sector since 2016. PIR's can be issued by local auditors if there are significant concerns around council activity, such as major failings in finance and governance.

The recent PIRs have made headlines because, up to this point, very few have ever been issued. But, as our latest report “Lessons from recent Public Interest Reports” explores, all three illustrate some of the fundamental issues facing the wider sector and provide a lesson for all local authorities around: weaknesses in financial management; governance and scrutiny practices; and council culture and leadership; which, when combined, can provide fertile ground for the kind of significant issues we might see in a PIR.

The COVID-19 pandemic highlighted four essential factors we probably always knew about local government, have often said, but which are now much better evidenced:

- 1) Local government has provided fantastic support to its communities in working with the NHS and other partners to deal with the multifaceted challenges of the pandemic.
- 2) Britain's long centralised approach to government has been exposed to some degree in terms of its agility to tailor pandemic responses to regional and local bodies. This is recognised by the current government who continue to pursue the options for devolution of powers to local bodies. Track and Trace delivered centrally has not been as successful as anticipated and, according to government figures, local interventions have had more impact.

- 3) Years of reduced funding from central government have exposed the underlying flaws in the local authority business model, with too much reliance on generating additional income.
- 4) Not all authorities exercise appropriate care with public money; not all authorities exercise appropriate governance; and not all authorities have the capability of managing risk, both short and long term. Optimism bias has been baked into too many councils' medium-term plans.

The PIRs at Nottingham City Council (August 2020), the London Borough of Croydon (October 2020), and Northampton Borough Council (January 2021) are clear illustrations of some of the local government issues identified above. The audit reports are comprehensive and wide-ranging and a lesson for all local authorities. Local authorities have a variety of different governance models. These range from elected mayor to the cabinet and a scrutiny system approach, while others have moved back to committee systems. Arguments can be made both for and against all of these models. However, in the recent PIR cases, and for many other local authorities, it's less about the system of governance and more about how it operates, who operates it and how willing they are to accept scrutiny and challenge.

There are a number of lessons to be learned from the recent PIR reports and these can be broken down into three key areas which are explored further in our report:

- 1) The context of local government in a COVID-19 world
- 2) Governance, scrutiny, and culture
- 3) Local authority leadership.

The full report is available here:

# Annual Transparency Report – Grant Thornton

As auditors of several listed entities as well as nearly one hundred major local audits, we are required as a firm to publish an annual transparency report.

The report contains a variety of information which we believe is helpful to Audit Committees as well as wider stakeholders. The Financial Reporting Council (FRC) in their thematic review of transparency reporting noted that they are keen to see more Audit Committee Chairs actively engaging and challenging their auditors on audit quality based on the information produced in Transparency reports on a regular basis. We agree with the FRC and are keen to share our transparency report and discuss audit quality with you more widely.

The transparency report provides details of our:

- Leadership and governance structures
- Principle risks and Key Performance Indicators
- Quality, risk management and internal control structure
- Independence and ethics processes
- People and culture
- Compliance with the Audit Firm Governance code and EU Audit directive requirements

We have made significant developments in the year as part of our Local Audit Investment Plan to improve our audit quality. We welcome an opportunity to discuss these developments and our transparency report should you wish.

The full report is available here:

[Transparency report 2020 \[grantthornton.co.uk\]](https://www.grantthornton.co.uk/transparency-report-2020)

# Local government finance in the pandemic – National Audit Office

The National Audit Office (NAO) report, published in March, notes “The COVID-19 pandemic has been an unprecedented public health and economic emergency. Local authorities in England have made a major contribution to the national response to the pandemic, working to protect local communities and businesses, while continuing to deliver existing services. The pandemic has in turn placed significant pressure on local authorities’ finances, which in many cases were already under strain going into the pandemic.”

The NAO report examines if the Department’s approach to local government finance in the COVID-19 pandemic enabled it to assess and fund the costs of new services which local authorities have been asked to deliver. It also examines whether the Department fulfilled its responsibilities in securing financial sustainability across the sector.

The NAO report concludes “Steps taken by the government, led by the Department, have supported local authorities in the COVID-19 pandemic response. The Department’s successful monthly collection of data and continued intensive engagement with the sector provided a good evidence base to underpin the financial and other support provided by government. Action by the Department and wider government to support the sector has averted system-wide financial failure at a very challenging time and means that the Department has managed the most severe risks to value for money in the short term.

However, the financial position of local government remains a cause for concern. Many authorities will be relying on reserves to balance their 2020-21 year-end budgets. Despite continuing support into 2021-22 the outlook for next year is uncertain. Many authorities are setting budgets for 2021-22 in which they have limited confidence, and which are balanced through cuts to service budgets and the use of reserves.”

The NAO report found that “the combined impact on spending and non-tax income in 2020-21 is £9.7bn – equivalent to 17.6% of revenue expenditure. So far the government has announced £9.1bn of financial support, leaving a deficit of £605m.”

The full report can be obtained from the NAO website:

[Local government finance in the pandemic - National Audit Office \(NAO\) Report](#)

# Local authority Covid-19 pressures - MHCLG

Outturn figures from the Ministry for Housing, Communities and Local Government (MHCLG) show that local authorities in England reported additional cost pressures of £12.8bn relating to Covid-19 in 2020-21. Overall, local authorities spent £7.2bn responding to the pandemic last year, with the largest share of additional expenditure going on adult social care services at £3.2bn.

**Additional expenditure due to COVID-19 by class and service area (£ millions) (2020-21)**

	Shire District	Shire County	Unitary Authority	Metropolitan District	London Borough	Total

# CIPFA Financial Resilience Index

The Chartered Institute of Public Finance & Accountancy's (CIPFA) Financial Resilience Index is a comparative tool designed to provide analysis on resilience and risk and support good financial management.

CIPFA note "CIPFA's Financial Resilience Index is a comparative analytical tool that may be used by Chief Financial Officers to support good financial management, providing a common understanding within a council of their financial position.

The Index shows a council's position on a range of measures associated with financial risk. The selection of indicators has been informed by extensive financial resilience work undertaken by CIPFA over the past five seven years, public consultation and technical stakeholder engagement.

Section 151 officers may also use the index in their annual report to the council setting out the proposed budget for the year and medium-term financial strategy.

While the impact of COVID-19 resulted in a delay to the publication of the index, it is still able to provide a comprehensive pre-COVID baseline, illustrating the financial resilience of authorities as they entered the pandemic."

CIPFA found that "there was a real-terms reduction of £800m in the level of reserves in 2020 compared with the previous year. At the end of March 2020 council reserves levels stood at £24.6bn, around 3% lower than £25.4bn recorded at the same period in 2019."

CIPFA note "The index is made up of a set of indicators. These indicators take publicly available data and compare similar authorities across a range of factors. There is no single overall indicator of financial risk, so the index instead highlights areas where additional scrutiny should take place in order to provide additional assurance. This additional scrutiny should be accompanied by a narrative to place the indicator into context."

The Financial Resilience tool is available on the CIPFA website below:

<https://www.cipfa.org/services/financial-resilience-index-2021?crdm=0>

# Good practice in annual reporting – National Audit Office

The National Audit Office (NAO) state that the guide, launched in February, “Sets out our good practice principles for good annual reporting and provides illustrative examples taken from public sector organisations who are leading the way in this area.”

The guide draws on examples of good practice from within each of the six sections of an Annual Report:

- Strategy
- Risk
- Operations
- Governance
- Measures of success
- Financial performance

The NAO also state that the guide “provides further examples where bodies have made their context more understandable to the reader through use of graphics and clear language and signposting.”

However, The NAO observe “Done well, reporting in the public sector enables the public and Parliament to understand – with ease and confidence – an organisation’s strategy and the risks it faces, how much taxpayers’ money has been spent and on what, and what has been achieved as a result.”

Further, the NAO note “The significant impacts of the pandemic emerged in the UK in mid-March 2020. This means that, for many organisations, the reporting impact will be greater in 2020-21 than in the prior year. Transparent annual reporting will help stakeholders understand the impact of COVID-19 on an organisation’s strategy, plans and operational and financial performance.”

The full report can be obtained from the NAO website:

<https://www.nao.org.uk/report/good-practice-in-annual-reports-february-2021/>

# Government response to Redmond review – MHCLG

Government has published an update on the Ministry of Housing, Communities & Local Government response to Sir Tony Redmond's independent review into the effectiveness of external audit and transparency of financial reporting in local authorities.

The MHCLG press release states "The Audit, Reporting and Governance Authority (ARGA) – the new regulator being established to replace the Financial Reporting Council (FRC) – will be strengthened with new powers over local government audit, protecting public funds and ensuring councils are best serving taxpayers.

The new regulator, which will contain a standalone local audit unit, will bring all regulatory functions into one place, to better coordinate a new, simplified local audit framework.

ARGA will continue to act as regulator and carry out audit quality reviews as the FRC does now. It will now also provide annual reports on the state of local audit and take over responsibility for the updated Code of Local Audit Practice – the guidelines councils are required to follow.

The government has confirmed that the Public Sector Audit Appointments (PSAA) will continue as the appointing body for local audit, in charge of procurement and contract management for local government auditors.

In the immediate term, MHCLG will set up and chair a Liaison Committee, which will comprise senior stakeholders across the sector that will oversee the governance of the new audit arrangements and ensure they are operating effectively."

The press release goes on to state the "measures finalise the government's response to Sir Tony Redmond's independent review into local audit, carried out last year.

The government has already announced £15 million to support councils with additional costs in audit fees, and recently consulted on the distribution of this funding. Government is also consulting on improving flexibility on audit fee setting and has extended the deadline for when councils must publish their audited accounts.

The press release can be found here:

<https://www.gov.uk/government/news/government-publishes-update-to-audit-review-response>

# 2019/20 audited accounts – Public Sector Audit Appointments

In December 2020 Public Sector Audit Appointments (PSAA) published figures relating to the audit of 2019/20 local authority financial statements.

PSAA report “Audit arrangements in local councils, police, fire and other local government bodies are continuing to exhibit signs of stress and difficulty. In the latest audit round, focusing on 2019/20 financial statements and value for money arrangements, fewer than 50% of bodies’ audits were completed by the revised target of 30 November.

Figures compiled by PSAA, the organisation responsible for appointing auditors to 478 local bodies, reveal that 55% (265) of audit opinions were not issued by 30 November. This is a further deterioration on 2018/19 audits when 43% of opinions (210 out of 486) were delayed beyond the then target timetable of 31 July.”

By 30 November, Grant Thornton had signed 113/208 audits (a 55% completion rate), meaning that only 45% of audit opinions were not signed by 30 November, compared to the 55% all firms average.

PSAA go on to note “This year’s timetable has been deliberately eased by Ministers in recognition of the underlying pressures on the audit process and the significant added complications arising from the Covid-19 pandemic. The pandemic has posed practical challenges for bodies in producing accounts and working papers, and for auditors to carry out their testing. Both sets of staff have had to work remotely throughout the period, and the second national lockdown came at a critical point in the cycle.

Questions and concerns about the potential implications of the pandemic for some bodies have meant that both finance staff and auditors have needed to pay particular attention to the financial position of each entity. Additionally, following a series of increasingly challenging regulatory reviews, auditors have arguably been more focused than ever on their professional duty to give their opinion only when they are satisfied that they have sufficient assurance.”

The news article can be found here:

[News release: 2019/20 audited accounts – PSAA](#)

# Consultation on 2023-24 audit appointments – Public Sector Audit Appointments

Public Sector Audit Appointments (PSAA) is consulting on the Draft prospectus for 2023 and beyond.

PSAA state “Our primary aim is to secure the delivery of an audit service of the required quality for every opted-in body at a realistic market price and to support the drive towards a long term competitive and more sustainable market for local public audit services.

The objectives of the procurement are to maximise value for local public bodies by:

- securing the delivery of independent audit services of the required quality;
- awarding long term contracts to a sufficient number of firms to enable the deployment of an appropriately qualified auditing team to every participating body;
- encouraging existing suppliers to remain active participants in local audit and creating opportunities for new suppliers to enter the market;
- encouraging audit suppliers to submit prices which are realistic in the context of the current market;
- enabling auditor appointments which facilitate the efficient use of audit resources;
- supporting and contributing to the efforts of audited bodies and auditors to improve the timeliness of audit opinion delivery; and
- establishing arrangements that are able to evolve in response to changes to the local audit framework.”

The plans include proposals to adjust the procurement ratio between quality and costs from an equal 50:50 to 80:20, as well as trying to bring new suppliers in to the market.

The consultation on the PSAA’s proposals closes on 8 July.

The news article can be found here:

<https://www.psa.co.uk/about-us/appointing-person-information/appointing-period-2023-24-2027-28/prospectus-2023-and-beyond/draft-prospectus-for-2023-and-beyond/page/7/>

# Councils given power to build more homes for first time buyers and for social rent – MHCLG

The Ministry of Housing, Communities & Local Government (MHCLG) has announced that councils in England will have more freedom on how they spend the money from homes sold through Right to Buy to help them build the homes needed in their communities.

The MHCLG press release states the “package will make it easier for councils to fund homes using Right to Buy receipts, including homes for social rent, and give them greater flexibility over the types of homes they provide to reflect the needs of their communities.

It will also give councils more time to use receipts and to develop ambitious building programmes. The government wants homes supplied using Right to Buy receipts to be the best value for money, and to add to overall housing supply, to help towards delivering 300,000 new homes a year across England by the mid-2020s.”

The press release goes on to note “New measures include:

- extending the time councils have to spend Right to Buy receipts from 3 years to 5 years
- increased cap on the percentage cost of new homes councils can fund from Right to Buy receipts raised from 30% to 40% per home, making it easier to build replacement homes
- allowing receipts to be used for shared ownership, First Homes, as well as affordable and social housing, to help councils build the homes their communities need
- introducing a cap on the use of Right to Buy receipts for acquisitions to help drive new supply.”

The press release can be found here:

<https://www.gov.uk/government/news/councils-given-power-to-build-more-homes-for-first-time-buyers-and-for-social-rent>
