Cllr D Woan – Somerset County Council

1 Appointment of the Local Government Reorganisation Implementation Board Vice-Chair – Agenda Item 1

The Chair invited nominations from proposers and seconders for the election of Vice- Chair of the LGR Implementation Board. Proposed by the Leader of the Council, Cllr Bill Revans and seconded by Cllr Frances Nicholson, the LGR Implementation Board agreed to appoint Cllr Duncan McGinty as the Vice-Chair of the Local Government Reorganisation Board.

2 Declarations of Interest – Agenda item 3

Declarations of interest – none.

3 Public Question Time (PQT) – Agenda item 4

The Chair informed the LGR Implementation Board that no public representations had been received by the submission deadline.

4 Summary Terms of Reference - Agenda item 5

The Chair of the LGR Implementation Board, Cllr Val Keitch, invited the LGR Programme Director, Alyn Jones, to present the report.

The LGR Programme Director, with the aid of a PowerPoint presentation, proceeded to present the report, highlighting; the proposed change of frequency of meetings from a 4-week cycle to a 6-week cycle, that would enable scrutiny recommendations to be received by LGR Implementation Board.

The LGR Implementation Board proceeded to debate the report and invited comments from other members present, points raised included; whether the 6-weekly meeting cycle would meet demands of the work to be achieved in a short time frame; the mechanism for calling extra meetings; the balance between preparing, reporting and doing; the PwC report, scorecard and QA (Quality Assurance) feedback requested to be made available monthly for assurance on progress.

The LGR Programme Director acknowledged the body of work prior and post vesting day, and advised of the ability to call informal meetings between the 6-

weekly LGR Implementation Board meetings as required, confirming that the PwC report, scorecard and QA feedback to be circulated monthly.

Somerset County Council Democratic Service Manager, Andrew Melhuish, further added to the above points that the procedure for calling a meeting could be found detailed in section 13 of the Terms of Reference:

The Implementation Board will meet at least monthly and otherwise as may be determined by the Chairperson. Where either a majority of members or at least three district council members submit a signed request for an extraordinary meeting in writing to the Chairperson (or the Vice-Chairperson in the absence or incapacity of the Chairperson), the Chairperson (or Vice Chairperson as the case may be) must make arrangements to call an extraordinary meeting within 10 calendar days of receiving the request.

The Leader of the Council, Cllr Bill Revans proposed, and Cllr Duncan McGinty seconded, the proposed amendment of recommending to the County Council Executive that the LGR Implementation Board meet every 6 weeks, or as determined by the Chair of the LGR Implementation Board, this amendment was agreed.

RESOLVED:

That following consideration of the officer report, appendices, PowerPoint presentation and discussion the LGR Implementation Board noted the Terms of Reference for the LGR Implementation Board, and agreed to recommend to the County Council Executive that the LGR Implementation Board meet every 6 weeks or as determined by the Chair of the LGR Implementation Board.

5 Progress Report - Agenda item 6

The Chair of the LGR Implementation Board, Cllr Val Keitch, welcomed Director of PwC, Ben Pykett and invited the LGR Programme Director, Alyn Jones, the Programme Manager – Local Government Reorganisation for Somerset, Alastair Higton and the Equality and Risk LGR Programme Manager, Angela Farmer to introduce and summarise the report.

The LGR Programme Director introduced the report, highlighting; the benefits of the transparency of scorecard reporting and that the current amber status of the Programme was due to a number of resourcing pressures both in the Programme and business as usual services; that the Programme is part of the overall approach to MTFP (Medium Term Financial Plan) and the positive opportunities across the five Local Authorities to collaborate and work together to mitigate the gaps; that resourcing remains a challenge, particularly in the Service Alignment workstream; that work is under way to understand where these pressures are greatest and agree a solution.

The Equality and Risk LGR Programme Manager, with the aid of a PowerPoint presentation, proceeded to present the report, highlighting; the overview and general update on risks and the development of the programme; the current programme level risks and the high level dashboard residual and workstream risks, and summarised the seventeen risks identified; the potential three risks identified post vesting day: loss of staff, unforeseen emergency and budget gap; that the Programme level risks are monitored and reviewed through the Programme Management Office, Programme Steering Board and the work with PwC to align issues through their assurance work with Programme level risks.

Ben Pykett, PwC Director, with the aid of a PowerPoint presentation, proceeded to present the PwC report, highlighting; the MTFP challenges and resource pressures, the scope and complexity of the Programme and the need to influence and control the expectation; that a number of issues remain that need to be addressed to (1) establish a safe and legal functioning authority on 1st April 2023, (2) deliver on the benefits of LGR based on the commitments made in the business case and to set a firm foundation for future transformation and financial sustainability for the council.

The LGR Implementation Board proceeded to debate the report and invited comments from other members present, points raised included: the checks and balances of the Programme and the welcome rigour brought to the risk register; the importance of scrutiny as a critical friend; the risks of destabilising the workforce due to uncertainty of roles for the new Council and loss of staff; the unique situation and challenges, and the importance of taking opportunities to work cleverly and collaboratively across the five Councils to plan ahead.

The Chair of the LGR Implementation Board, Cllr Val Keitch, in response to points raised, acknowledged and shared the concerns around job uncertainty, the loss of staff, the current difficulty in recruitment and the expense of the interim market.

The LGR Programme Director responded to points raised, noting that the Programme operation transparency, with the totality of information to continue to be brought before the LGR Implementation Board. Further added that there is a Programme board, Programme steering group, and workstreams, with leaders responsible to take appropriate actions to address issues and the integration with risk and QA work with PwC; provided reassurance that actions were underway to review the people resource to understand and progress the target operating model and integrate priorities of the organisation, with a number of vacancies across all Councils.

The Programme Board 151 Officer, Jason Vaughan, further added to the above points that the management of human resources was key in the implementation of the business case, the posts identified, and the vacancies currently advertised.

The Leader of the Council, Cllr Bill Revans proposed, and Cllr Duncan McGinty seconded, the proposed amendment, asking that the LGR Joint Scrutiny Committee review the Risk Register, this amendment was agreed.

RESOLVED:

That following consideration of the officer report, appendices, PowerPoint presentation and discussion, the LGR Implementation Board noted:

- **The 17 current risks on the register.**
- **Identification of further risks that the board wish the programme to consider.**
- **Identification of the frequency of future reports to the Board, and asked that the LGR Joint Scrutiny Committee review the Risk Register.**

6 Review of Programme Strategic Objectives – Agenda item 7

The Chair of the LGR Implementation Board, Cllr Val Keitch, invited the LGR Programme Director, Alyn Jones, to introduce the report and for the Programme Manager – Local Government Reorganisation for Somerset Alastair Higton to present the report.

The Programme Manager – Local Government Reorganisation for Somerset proceeded to present the report, highlighting; the maintenance of the implementation plan and the review of the strategic objectives to keep the programme fit for purpose.

The LGR Implementation Board proceeded to debate the report and invited comments from other members present, points raised included: LCN pilots, the general relationship and the importance of getting the correct message to Parish and Town Councils to provide clarity and alleviate confusion; the delivery of LCNs and the review of the objectives to be realistic, manage expectations and represent what can be delivered for vesting day.

The LGR Programme Manager, Alyn Jones thanked the LGR Implementation Board for the clear steer and suggestions to shape and develop the objectives.

Cllr John Clark proposed, and Cllr Liz Leyshon seconded, the proposed amendment to review the wording of the strategic objectives to be fit for purpose, clear and high level, this amendment was agreed.

RESOLVED

That following consideration of the officer report, appendices, PowerPoint presentation and discussion, the LGR Implementation Board endorsed that the Chair of the Board, in consultation with The LGR Implementation Board and Programme team:

- **Review the wording of the Strategic Objectives to be fit for purpose, clear and high level.**

- **Support the deliverables and Business Plan objectives, and note objective 3, “Decarbonisation” requires firming up to reflect climate and ecological emergency declarations.**
- **Support the proposal to Executive to amend the Implementation Plan**

The LGR Implementation Board noted that the amendments of the strategic objectives were subject to review by the LGR Implementation Board.

7 Local Community Networks: update and items for Board review - Agenda item 8

The Chair of the LGR Implementation Board, Cllr Val Keitch, invited LGR Workstream Lead for Customers and Partnerships, Jan Stafford, to present the report.

LGR Workstream Lead for Customers and Partnerships, with the aid of a PowerPoint presentation, proceeded to present the report, highlighting; the LCN journey to date; the timetable, milestones and phasing of LCN development, implementation and delivery; the approach to engagement & consultation and the consideration of establishing a small Member/Officer LCN Task & Finish Group to shape their new council to suit their local needs; summarised possible roles, additional considerations, principles and values; the three LCN Pilots that are underway and currently developing evaluation framework, the LCN geographies options analysis developed and in draft, the draft Terms of Reference prepared and the initial financial modelling of number of LCNs and staff resourcing; summarised the LCN development approach by April 2023, the approach from 2024 onwards and the asset and service devolution approach, articulated the indicative timescales and emphasised engagement and consultation and the mechanisms to be used for engagement and consultation.

The LGR Implementation Board proceeded to debate the report and invited comments from other members present, points raised included: the importance of giving the Town and Parish Councils a voice, the practice of being an LCN and participation, membership and priorities, consideration of options, including shadow LCNs, the consideration of MTFP challenges in planning LCNs; LCN community engagement, decision making and reflection of the local situation; the useful input of scrutiny through development of LCNs; clarification of Committees of Council or Executive, whereby a Committee of the Council will include council functions; the targeted stakeholder engagement and communication; shared concerns and the importance of consultation to add value to the process; framework, political balance and membership of the working group.

The Leader of the Council, Cllr Bill Revans drew attention to the importance of discussion with partners to development policy, the size, powers and scope of LCNs and provide input to the LGR Joint Scrutiny Committee, additionally that

the LCN Working group membership should not exclude any council and continue to engage District Councils.

In response to the points raised, the Programme Board Monitoring Officer, advised that a decision for LCNs to be Committees of the Council or Executive would be dependent on the functions that the Executive choose to delegate and decided before vesting day; that the decision would form part of the constitution.

The Chair of the Implementation Board, Cllr Val Keitch proposed and Cllr Duncan McGinty seconded, the proposed amendment for the Working Group to report its findings to the LGR Joint Scrutiny Committee and the Board, this amendment was agreed.

RESOLVED

That following consideration of the officer report, appendices, PowerPoint presentation and discussion, the LGR Implementation Board:

- **Endorsed the emerging Phases to creation of LCNs.**
- **Endorsed the proposed approach to engagement & consultation.**
- **Approved for the setting up an LCN Working Group and for the Working Group to report its findings to the LGR Joint Scrutiny Committee and the Board.**

8 LGR Advisory Forum – agenda item 9

The Chair of the LGR Implementation Board, Cllr Val Keitch, invited the LGR Communications Lead, Steve Coomber, to present the report.

The LGR Communications Lead proceeded to present the report, highlighting; that the report proposed a revised approach to give partner groups greater influence within the LGR governance structure; provision of a more compelling platform for engaging Somerset residents in matters which interest them most; look to facilitate Partner and public representation through separate events, supported by the LGR Advisory Forum.

The LGR Implementation Board proceeded to debate the report and invited comments from other members present, points raised included: the proposed membership and the need for inclusion and representation of Parish Councils; review the partner representation contacts.

The LGR Communications Lead noted to review the membership and look to include Parish Councils.

RESOLVED

That following consideration of the officer report, appendices, PowerPoint presentation and discussion, the LGR Implementation Board agreed:

2.1 That an LGR Advisory Forum, comprised of representative partner organisations and Chaired by the Executive Lead Member for LGR, be formed to fulfil the terms of reference previously agreed for the LGR Advisory Board, And that;

2.2. The Partner and public representation should be facilitated through separate events, supported by the LGR Advisory Forum. As follows:

- **LGR Advisory Forum meetings held every six weeks and preceding LGR Implementation Board meetings by one week. Meetings will be attended by Forum members only. The Forum will approve a Memorandum following each meeting to be submitted to both the LGR Programme Board and LGR Implementation Board for consideration.**

- **Public events will be held as part of a broader public engagement plan. Five events prior to vesting day will focus on the challenges identified in the 2019 Future of Local Government in Somerset Report and build on the ambitions of the agreed unitary business case. The LGR Advisory Group will be asked to support these events by engaging their own constituents in the discussion.**

9 Consequential Parliamentary Order – Agenda item 10

The Chair of the LGR Implementation Board, Cllr Val Keitch, invited the LGR Programme Board Monitoring Officer, Scott Wooldridge, to present the report.

The LGR Programme Board Monitoring Officer, proceeded to present the report, with the aid of a PowerPoint presentation, highlighting; that this report follows on from the Government's approval to the Somerset Structural Changes Order (SCO) in March 2022; summarised the certain rights, functions and legislative amendments (known as Consequential Parliamentary Order(s)) which need to be addressed as a consequence of the creation of Somerset Council on 1 April 2023; that the Department for Levelling Up, Housing and Communities (DLUHC) is responsible for preparing any Consequential Parliamentary Order and are engaging with Somerset councils regarding the potential content of any Consequential Parliamentary Orders with the aim of finalising these by Autumn 2022, for consideration by both Houses of Parliament in early 2023 to ensure they are approved ahead of vesting day on 1 April 2023.

RESOLVED

That following consideration of the officer report, appendices, PowerPoint presentation and discussion, the LGR Implementation Board supported and recommended to the County Council's Executive:

- i) **That the matters set out in Appendix 1 of the report, be submitted to DLUHC for inclusion in a Consequential Parliamentary Order (also known as a Supplementary Provision and Miscellaneous Amendments Order) as a consequence of the Somerset (Structural Changes) Order 2022.**
- ii) **That the Monitoring Officer of Somerset County Council is granted delegated authority, in consultation with the Leader of Somerset County Council, to submit the matters set out in Appendix 1 of the report to DLUHC and to submit any further matters to DLUHC that may arise along with taking all actions necessary to progress the drafting of the Order.**

10 LGR Implementation Board – Meeting Dates and Membership – Agenda item 11

The Chair of the LGR Implementation Board, Cllr Val Keitch, invited Somerset Council Democratic Services Manager, Andrew Melhuish, to present the report.

Somerset County Council Democratic Service Manager, Andrew Melhuish, proceeded to present the report, highlighting; the amendment of meeting schedule dates to follow and noted the membership of the LGR Implementation Board.

The Leader of the Council, Cllr Bill Revans further added to the above points, that post Election Membership had moved to being politically proportionate.

Following consideration of the officer report, the officer PowerPoint presentation and discussion the LGR Implementation Board

1. Noted the membership of the LGR Implementation Board.

2. Agreed that the LGR Implementation Board meeting dates, in consultation with the Chair of the LGR Implementation Board, Programme Director and Monitoring Officer, be revised

11 AOB – agenda item 12

The Chair of the LGR Implementation Board thanked the Somerset County Council outgoing Chief Executive, Patrick Flaherty, for his invaluable work towards Local Government Reorganisation.

(The meeting ended at 4.51pm)

New Somerset Council

Programme update (including progress update, PwC Assurance Report)

Alyn Jones

Programme Scorecard for months of July/August

Alyn Jones

Key points for discussion:

1. Overall programme status: Amber
2. Product delivery;
 1. 39 Tranche 1 Products have been delivered in July
 1. 203 T1 milestones delivered in July
 2. 40 Tranche 1 Products have been delivered in August
 1. 239 T1 milestones delivered in Aug
3. Resourcing remains a challenge. Mutual aid is being used where possible as part of mitigation.

Ask of Implementation Board:

- To review and note the scorecard

LGR in Somerset - Top Level Programme Scorecard - Position as of End of Jul 2022 [USING AVAILABLE DATA]

Escalations & Awareness

Awareness

Finance

- Revs & Bens - resourcing challenges and BAU service demands, with backfilling with skilled resourcing proving problematic. Different IT platforms means resources can't be shared between districts. Creating insufficient focus on some key BAU activities and engagement in LGR work. Internal discussions are being undertaken at SSDC re the additional resourcing requirements, but these have not been formally approved as yet. Awaiting formal escalation from WS and evaluation of the risk.
- Redundancy budget milestones are/will be re-cast informed by appointments timelines so we have clear markers for when budget implications can be understood with a greater degree of confidence
- Contracts - delivery date for milestone for a plan in place for all 839 contracts will move back in line with the MTFP deadline of 23/09/2022. Also, the contracts ending soon, high value contracts and areas of opportunity/risk will be prioritised.
- MTFP budget working group - a clear forward plan for engagement will be key to ensuring pace and momentum
- Capital and investments made for yield being re-planned now that resource is in place. Discussion is taking place with Asset Optimisation to ensure no knock on detrimental impacts to their deliverables

CCP

- The approach and scheduling to LCN's in particular geographies, governance, role, engagement and consultation was presented and supported by the LGR Implementation Board on Fri 29 Jul. A Member Working Group will be established to move this work forward.

Asset Optimisation Tech

- MTFP work within the workstream and by other workstreams will add to resource pressures for SMEs within the Tech Workstream. The impact is unknown and has not been quantified in this scorecard. When the impact of the MTFP is fully understood the overall RAG rating might deteriorate again.

Escalations & Awareness

Overall Programme Summary

The programme remains **amber RAG overall** as a result of some slippage to programme delivery and continuing resourcing pressures in key areas of the programme. Delays to finalising the top structure will impact on the pace of tiers 2 and 3 appointments and subsequently impact other programme deliverables which are dependent on these appointments being made. Further, the increasing MTFP gap will potentially increase the programme's level of strategic risk.

The PMO have **successfully mobilised a Business Readiness Group**; the programme has an emerging picture of our readiness for Day 1 and beyond and cumulative impacts of changes on various stakeholder groups. These will help prepare for and aid successful transition.

For Awareness

Across the programme, many sub-workstreams reporting challenges in maintaining LGR activity and BAU especially in light of MTFP requirements. Wellbeing support for staff to continue to be promoted/communicated.

SAI - Resource

- Continued concerns about the capacity to deliver the LGR programme alongside BAU resourcing pressures. Work is underway to identify any activity that can be reclassified as non-essential to free up resource/focus to ensure a fully operational authority is established for vesting day

Escalations & Awareness (continued)

Finance - Finance

Financial pressures are increasing significantly, both in-year and for the MTFP, with inflation having a major impact. MTFP deadlines for fees and charges and the analysis of the baseline Capital programme have slipped, both due to finance team resources and capacity pressures in services. The work being completed externally to benchmark service costs and structures and help mitigate the risk of identifying insufficient savings is also delayed and is unlikely to be ready until mid-late October. Analysis and prioritisation of contract opportunities also continues.

Further analysis of the MTFP gap is underway to ensure the current approach is sufficient and programme risks related to the MTFP are being closely monitored. A clear plan for member engagement is in place.

People

• The new CEO's involvement in Operation London Bridge has resulted in a delay to finalising the Tiers 2 & 3 structure meaning tiers 2 and 3 appointments will be later than originally planned. This will impact on dependent programme deliverables, particularly where the new postholders will influence and shape delivery (e.g. Business plan, TOM realisation, organisational structure at tiers 4 and below). Timescales are being modelled on gaining approval for the top structure in early October so that activity can be scheduled as far as possible and decision points prepared for. Progress is being closely monitored by Programme Board.

Asset Optimisation Property

• Considering the MTFP requirements, many activities within this workstream need to be re-profiled to bring forward delivery that enables realisation of savings earlier within the MTFP. Therefore, we will see some change in the plans for this workstream.

Asset Optimisation Technical

• The Capita IT decision is expected to be made in October, there are however still a risk of delay.

CCP

• LCN Geographies Consultation has started, this is very resource intensive, but we are on track for the November Executive deadline to confirm the LCN's geographic boundaries

PwC Monthly Report

Author:
PwC

Key points for discussion:

This is the assurance report covering July and August which is intended to:

- Set out emerging themes, insights and reflections as part of the 'critical friend' role the core team have been commissioned to provide, informed by outputs from workshops, 1:1 meetings and smaller working sessions; and attendance at the Programme Steering Group and Programme Board meetings;
- Provide an overview of some of the key activities that have taken place over the past month;
- Propose solutions to issues identified and suggested next steps.

This monthly report contains reflections from a particular point in time and recognises the progress that has been made against issues or risks highlighted in previous reports.

Ask of Programme Board:

- To review the contents of the report

Contents

This is the eighth monthly report which is intended to:

- set out emerging themes, insights and reflections as part of the ‘critical friend’ role the core team have been commissioned to provide.
- review the previous assurance reports from June and July, the programme BI dashboards, and incorporates an updated view on progress in August based on our attendance of Programme Steering Group, Programme Board, and regular meetings with the PMO.
- provide an overview of some of the key activities that have taken place over the past month;
- propose solutions to issues identified and suggested next steps.

This monthly report (August 2022) contains reflections from a particular point in time.

Title
Summary for August
LGR programme <ul style="list-style-type: none">• Governance considerations• Leadership considerations• Tranche 1/vesting day delivery• Change management considerations• Year 1-3 transformation considerations

August Review: Summary

- The programme needs to bring together the key products of the MTFP, Activity Analysis and LGR workstreams with the development of the TOM through a series of interim states to provide the programme with a clear steer and direction in the coming months and years (beyond Vesting Day).
- Attention must be paid to the cumulative impact of the change management actions across the programme; a holistic review of these changes should take place at Programme Board level to ensure the full impact is acknowledged and interdependencies identified and mitigated against.
- The current programme structure has been in place for nearly 12 months, this along with the arrival of the new CEX provides helpful framing for a review of the current governance structures to determine where changes should be made to best meet the needs of this evolving programme.
- A level of grip must be expected of workstream leads by the programme. There is currently a lack of oversight of sub-workstream activities, and it is important that sub-workstreams are commissioned to by the programme in order to collectively achieve the TOM, rather than individual sub-workstreams informing the programme of their siloed activities.
- There is an ever increasing risk around capacity and capability of sub-workstream leads to deliver their products to meet key milestones. There are concerns that even minor absences (1 or 2 team members in some cases) could cause challenging delays. Following milestone setbacks caused by AL over the summer, the programme must look ahead to future 'crunch points' around Christmas and the New Year to mitigate against future delays.

LGR Programme - governance considerations

Overview of insights

The Programme is devolved across two layers (workstream, and sub workstream). The sub workstream is responsible for delivering all products including identifying and reporting on milestones, risks, issues and change management (including communications). The detail of all of this has been built up and is captured and is reported to the Programme Board and Steering Group. **Given that the current programme structure has been in place for 12 months, it would be helpful to have a review to ensure this structure is still fulfilling the programme's requirements.**

- **The devolved model of delivery contributes to inconsistent levels of operational oversight at the workstream level.** Some workstream leads and workstream PMO not having comprehensive and accurate visibility around the progress sub-workstreams are making. Incomplete work plans, missing milestones, lack of clarity in the scope of products or full understanding of what impact the change of milestones might mean elsewhere, means that reporting does not necessarily provide an accurate picture of the progress made, and workstream leads and PMO were simply relying on verbal updates from the sub workstreams. The devolved model of delivery, with sub workstreams responsible for delivering products, is dependent on much stronger central oversight of the sub workstreams, not just in terms of tracking against milestones, but also reviewing and assuring the quality of the products produced.
- **The leadership or decision-making of some products should not be devolved to a sub workstream, and should either be delivered central by the LGR Programme, or warrant more central coordination and oversight.** A range of products have been identified across recently monthly reports that warrant more central ownership and / or oversight of product delivery. These include:
 - Change management including communications
 - Target Operating model
 - MTFP and benefits identification and tracking
 - Service standards
 - Technology-related products

Proposed next steps/issues to consider

A review of governance should also include a review of ways of working and the culture that is being driven by the way the programme currently operates. Whilst the programme needs the involvement of a high number of people, there needs to be a sense of clear leadership and a defined place where decisions are made and problems are solved which goes above and beyond facilitating workstream activity and reporting.

- Be clear about the leadership and delivery of tranche 1 products and anything else that is required by vesting day. There is a genuine need now to determine whether tranche 1 products and other vesting day activity should continue to sit in the workstreams. Being clear about the 1st April 2023 requirement vs longer term transformation will make it simpler to focus on the urgent whilst not losing sight of the important. It will also provide greater clarity and purpose for change management and communications activity.
- Maintain a focus on longer term transformation and how to connect the key products holistically across the programme; this will enable the TOM to steer the design of the new Council. The close interdependence between the operating model, MTFP, activity analysis, and scoping of tranche 2 and 3 ('the wider transformation') also reinforces the importance of stronger central steer. In addition, there may be a core set of 'central' products where responsibility for delivery should sit centrally within the workstream, not the sub workstream (e.g. service standards by SAI). It is important that the TOM, MTFP and corporate framework collaboratively guide the design and function of services and products across the programme.
- Building on the layers defined within the outline target operating model, define the functional areas, and re-align the LGR Programme structure around them. This will ensure there is clarity around which team is responsible for delivering which element of the operating model, and will ensure that the delivery of products at the sub workstream are aligned, and contribute to the wider operating model.

LGR Programme - leadership considerations

Overview of insights

Highlights from the May and June reports:

- **Programme leadership** oversight and strategic steer have strengthened over the past few months, focusing on delivering tranche 1 products, facilitated by the new eight week forward view.
- The **Programme Board** has developed a more focused approach in leading the programme, making a number of key strategic decisions over recent months to guide the Programme Steering Group and six workstreams
- **LGR PMO** provides check and challenge to each workstream on a monthly basis, and centrally coordinates key products.

There have also been a number of recommendations and suggestions around areas for improvement across the LGR leadership. They note:

- **Strong Central Steer:** There should be a continued theme of developing a stronger central steer and a top down approach to driving the programme. This should be centred around the rapid definition of the operating model for the new council and re-shaping the programme to align with it.
- Workstream **PMO must oversee up-to-date work plans**, with accurate milestones, and manage sub workstreams more closely, without relying on verbal updates. This will address issues where milestones are missing, not up to date, or where they are re-cast without central oversight.

Proposed next steps/issues to consider

- The role of Adults and Children's Services in the programme needs to be considered more holistically and as part of the operating model design.. They are the two largest Directorates and are likely to be responsible for the delivery of both cashable and qualitative benefits. It is important that they are involved in a range of relevant workstream activity (e.g. commissioning).
- Currently the MTFP, Activity Analysis, and LGR workstreams (tranches) activity is occurring simultaneously but not in a joined up way. The TOM is the glue that can bring these aspects together.
- These 'central products' need to be jointly delivered, working towards the shared timeframes of Executive approval in October and approval by the Full Council in November. Consideration needs to be given as to whether current timelines are realistic.
- Commence thinking beyond the 'safe and legal' vision for Vesting Day. The TOM needs to start to progress planning for the longer term and specifying when the broader benefits of LGR will be felt by residents, staff and communities.
- Consider changes to governance and reporting arrangements that will be required as a result of the CEX starting formally in post. This includes Programme Board having a clear line of sight over the cumulative impact of changes to milestones and products.

LGR Programme - tranche 1/vesting day delivery

Overview of insights

The May reports reflected progress around identifying what needed to be achieved to enable vesting day delivery:

- The Programme has a strong focus on what needs to be delivered on vesting day in Somerset.

The May and June reports have both reflected a number of recommendations and suggestions around areas for improvement in the run up to vesting day delivery. They note:

- The Programme is at a stage where it must balance the delivery of a safe and legal functioning authority in the context of a widening MTFP savings gap, and define and set the foundations for the improvements and transformation that will occur post-vesting day. This requires a clear vision of the new council, which the operating model design will deliver. **The Programme should bring together the operating model design, identification of savings, and tranche 2 and 3 planning as a combined piece of work.**
- **Priority Focus Areas for the programme:**
 - (1) ensuring critical products are on track and there is agreement around what they will and will not deliver,
 - (2) strengthening the assumptions and clarifying the timeframes around the realisation of LGR savings and non-cashable benefits,
 - (3) key programme-level risks,
 - (4) ensuring the Programme has the right capacity, skills, and experience.

Proposed next steps/issues to consider

- Monthly QA sessions have helped to examine progress against milestones for Tranche 1 and 2 products.
- In June, just six of 418 products were at risk of not being delivered, and two of the six workstreams were reporting as Amber in relation to schedule (Asset Optimisation and SAI).
- In September it was reported that a number of product milestones have been missed and are now not meeting agreed timeframes. This is a clear result of the high number of products due at specific crunch times (e.g. January).
- While the focus on the MVP has helped with prioritisation, there remains room for interpretation around what constitutes the MVP and what will be delivered by vesting day. It is likely that without clear direction from the TOM there will remain a lack of clarity in this area.
- The cumulative effect of changes to milestones needs to be taken account of at a programme wide level, potentially through the forum of Programme Board. It is important to develop a holistic view so that any impacts and interdependencies for Vesting Day are visible
- Tranche 2 planning - the programme are awaiting MTFP plans to come back before they finalise this.
- PSG now has sight of an eight week view of forthcoming products and milestones. It is important that all work plans and milestones are kept up to date by each sub workstream (and workstream), and that any changes are captured through the established change control process. This will enable PSG to strengthen its focus on developing solutions to the issues identified.

LGR Programme - change management considerations

Overview of insights

The May reports reflected progress around identification of risks across the programme; they note:

- Workstreams have **captured and are managing risks and dependencies** for each product. Reporting is embedded into day to day project management, and there is proactive engagement across workstreams around dependencies.

The May and June reports have both reflected a number of recommendations and suggestions around areas for improvement around the change management considerations. They note:

- Dependency mapping across products and workstreams, as well as at the programme level, has now been complete, however outstanding data gaps need to be addressed to ensure all dependencies are comprehensively captured. Work is ongoing to **embed the dependency management tool** across all workstreams and subworkstreams.
- **Clear approach to LGR savings:** there is a clear, centrally driven approach to the realisation and identification of savings. However it is important that transformation and alternative service delivery are explored as a key lever for realising savings, as many service standards are already operating at or near to the statutory minimum, which means that a reduction in service levels will not realise the savings required. The development of costed service structures and the activity analysis may also help to inform this work.
- **Resource gaps** need to be managed on an ongoing basis, in order to not impede project delivery. Resource constraints drive most instances where products are not on track. This must be owned by each workstream.

Proposed next steps/issues to consider

- The tangible benefits against Tranche 1 and 2 products should be feeding into the comms and change management activity.
- Work is ongoing to embed PMO products as part of day to day project management. For example, work plans and risk logs are regularly updated by workstreams. This needs to be progressed to become BAU.
- In the June report it was noted that while there was an increasingly mature understanding of dependencies at a product level, there was still a lot of work to be done around engaging with each other around dependencies. The new dependency mapping tool is now in use by the programme, however we need to go further to articulate fully the risks.
- Risk are being comprehensively captured at a workstream and programme level. A review of high level programme risks will help to identify additional opportunities to proactively mitigate risks.
- An assessment of people change was carried out across Tranche 1 products to target support where change management is critical for the delivery of key products. This is being pulled together into a insight tool; however, it now needs to be applied effectively across the programme.
- After the appointment of a comms lead for each workstream, has there been greater consideration around how communications are delivered as a key aspect of change management. This includes training and organisational development, ways of working and a culture, and tying this closely to benefits realisation.
- Insufficient focus and investment in change management is a common failing of LGR programmes, as it is in broader transformation programmes across local government.

LGR Programme - year 1-3 transformation considerations

Overview of insights

While focusing on the delivery of a safe and legal authority on Vesting day, there is also the simultaneous task of progressing the longer term 1-3 year considerations. From the May and June reports it is clear that this is an area that has been potentially deprioritised in light of competing tranche one products. The reports noted:

- Whilst the programme is focused on delivering tranche 1 products it is also **essential that the foundations continue to be laid down for the transformation and financial sustainability in the new council**. This includes continuing to develop the target operating model and develop plans to transform and improve services across tranches 2 and 3. This will be required to realise the benefits that underpinned the original decision to proceed with LGR, and to address the emerging MTFP savings gap.
- **Bringing together the activity analysis, operating model design, and MTFP to inform tranche 2 and 3 planning:**
 - (1) A range of core products that will inform the wider transformation of the new council post vesting day should tie in closely with the identification of LGR savings.
 - (2) The activity analysis will identify areas for investigation to realise further savings.
 - (3) In addition, operating model choices will be evaluated against indicative costs, so it is important that these parameters are set and consistent with the savings allocated to each service.
 - (4) Finally, technology as a key enabler in driving service improvements and efficiencies should be reflected in the technology strategy and applications roadmap.

Proposed next steps/issues to consider

- Gain political approval to proceed at pace with development of the TOM to act as the link between the manifesto, Council Plan, MTFP, LGR Plan and any future Transformation Plans
- Secure the capacity and capability required to develop the TOM further drawing on the TOM work done to date, input and engagement from key officers and politicians, the activity analysis, the current MTFP thinking and harnessing the expertise and experience available from your advisors.
 - There are growing concerns that the programme does not have the capacity to deliver the transformation aspects of the programme as well as Vesting Day needs.
- Use the TOM development work in conjunction with the activity analysis to inform the further development of the MTFP and the development of robust transformation plans
- Consider the extent to which these transformation plans should be delivered through Tranches 2 and 3 of the programme and whether or not other vehicles may be useful
- Bring plans to deliver MTFP savings into an overarching transformation programme to deliver the TOM.
 - The initial budgetary plans for the unitarisation were made prior to growing economic challenges. Budget expectations may need to be adjusted accordingly.
- Insufficient focus and investment on transformation in the pre-vesting day period is a common failing of LGR programmes. Many LGR programmes end up focusing closely on vesting day and this creates a significant challenge in getting quickly into transformation post-vesting day. This could be a significant risk in Somerset given the challenges being faced around the MTFP and increasing demand.

Together we are delivering your

New Somerset Council

Risk update (including feedback from recent Scrutiny Review)

Angela Farmer

LGR Implementation Board – programme level risk update

27th September 2022

Angela Farmer

Key points for discussion:

1. The current programme level risks and the changes since the last report to the Implementation Board
2. The overview of programme level risk report to LGR Joint Scrutiny committee

Ask of LGR Implementation Board

- To note the current programme level risks and the changes that have taken place since the last report
- To note that programme level risks have been presented to LGR Joint Scrutiny committee on the 19th August and the overview from that committee

Risk Update

- At the last Implementation Board on 29th July there were
 - 17 programme level risks
- Reporting to this board there are now
 - 19 programme level risks
 - 2 further risks added including
 - 103 - Agreement not reached with Trade Unions on pay scales/terms and condition for new Council staff
 - 111 - The risk of overspend on the £16.5 m LGR implementation budget
- Programme Steering Group and Programme Board will be considering the following risks
 - New risk - *The risk that the process of appointments to T2/T3/T4 roles could result in an employment claim if process is not followed properly*
- The programme level risks are as follows:

Ref	Risk description	Impact on the programme (effect(Inherent score	Controls/Actions	Residual score
10	There is a risk of a significant budget gap for new Somerset Council in 2023/24 when districts and County budgets combine, significantly impacting the financial stability of the new Council	<ul style="list-style-type: none"> Inability to set a balanced budget Reductions in service budget and levels 	22	<ul style="list-style-type: none"> Finance and asset protocol across 5 councils S24 Notice from DHLUC effective May 2022 Budget monitoring processes in the 5 councils Establishment control processes (People) Development of 22/23 baseline budget for new Council, to provide basis for the development of MTFP for new Somerset Council and 23/24 budget (22

14	Loss of opportunity to align public and VCSE services to new operating model and outcomes as defined in the Business Case	<ul style="list-style-type: none"> • Reduced financial and non-financial benefits • Poor relationship between partners and new authority • Transformational opportunity lost, delayed or reduced • Negative impact on cross-cutting outcomes for communities • Reputational damage for new council 	20	<ul style="list-style-type: none"> • Complete partner and stakeholder mapping exercise (CCP) • Targeted engagement with all strategic partners (CCP) • Effective ongoing communications with all stakeholders about LGR programme and its objectives (Comms) • Effective LCN's • Services thinking about the relationship with the public and VCSE in design and delivery (SA) • Ensure LGR Advisory Board remains inclusive, transparent and accessible (CCP) • Stakeholder management plan(s) for critical products and across workplans (CCP) • External communications on purpose and benefits of the LGR programme (Comms) • Senior officer engagement with VCSE and partners (CCP) • Use of customer panel to hear voice of the public and users (CCP) 	19
19	Design/products to create new unitary council will not have the community as the central focus in the design of the new operating model	<ul style="list-style-type: none"> • Organisational culture is not community focused • Insufficient partnership working • Poor outcomes for communities • Failure to deliver planned business case benefits 	19	<ul style="list-style-type: none"> • Programme and workstream checkpoint review criteria • Ensure LGR Advisory Board remains effective, inclusive, transparent and accessible (PSG) • Embdoy community focus as a critical requirement of operating model development through workshops, research and engagement (CCP) • Ensure TOM development reflects emerging customer strategy and principles (CCP) • Engagement with all workstreams to secure agreement/recognition that communities focus goes beyond safe and legal (CCP) • Ensure interdependencies are identified and managed through iterative discussion and collaboration (CCP) • Specifically, engage with People workstream to support as ethos and culture of communities and customers first (CCP/People) • Involve customers and communities in the design of products and services (CCP) • Learn from customer experience and feedback (CCP) • Develop sound business case to underpin sufficient resourcing to deliver communities focused objectives (CCP/Finance) 	18

Ref	Risk description	Impact on the programme (effect)	Inherent score	Controls/Actions	Residual score
27	Uncontrolled change to the scope of the LGR programme	<ul style="list-style-type: none"> • Failure to deliver the new council to agreed time, cost and quality. • Failure to deliver agree financial and non-financial benefits. • Missed transformation opportunities for the new authority • Impact on capacity of teams to manage and deliver the programme: rework, wasted effort and reduction in shared understanding of programme priorities and required activity 	19	<ul style="list-style-type: none"> • Programme Implementation Manual outlining decision-making tolerances and purpose of change control • Current Programme governance arrangements: PMO, Programme Steering Group and Programme Board to identify • Change control process in place • Strong communication within the programme within the programme promoting adherence to guidance around change control, benefits realisation and risk • Quality assurance of workstream reporting • Robust scrutiny of programme through LGR Implement Board and LGR Scrutiny 	14
139	Inter-dependencies between workstreams not managed effectively	<ul style="list-style-type: none"> • Inability to deliver cross-cutting products successfully and therefore benefits not realised 	19	<ul style="list-style-type: none"> • Programme tranches developed • A process/approach for management of dependencies to ensure impacts of change (time/cosy/quality) are easily understood at both workstream and programme level. • PMO providing assurance against delivery of programme capabilities • Dependency management tool in central list (sharepoint) • T1 products dependencies to be assessed are T1 sign off (Date: ongoing) • Management of dependencies and interdependencies are part of monthly assurance meetings between PMO and workstream (Date: ongoing) 	13
23	The risk that non-delivery or late delivery of key LGR products that other workstreams are dependant on	<ul style="list-style-type: none"> • Missed opportunities • Siloed working • Failure to deliver key products • Delays in workstreams and ultimately the programme • Re-engineering of solutions/rework required 	22	<ul style="list-style-type: none"> • Reliable critical path is available, with regular opportunities to monitor and course-correct when necessary • Regular opportunities for project managers to review with workstream an sub-workstream leads • Review of scorecards • Robust programme and project planning • Modelling interdependencies incorporated into work plans and must haves • Adequate resourcing of programme staff with appropriate capabilities and capacity to deliver workplan • Utilise lessons learned from other prrgammes • Dedicated LGR programme managers in post 	19

Ref	Risk description	Impact on the programme (effect)	Inherent score	Controls/Actions	Residual score
21	The risk that the LGR programme negatively impacts service provision and improvement activities of Children’s services and Adult Social care	<ul style="list-style-type: none"> • Performance of service for vulnerable adults negatively impacted • Poor external perception of quality of services • Potential Government intervention 	19	<ul style="list-style-type: none"> • Strong communication within the programme • Adherence to project guidelines around Change Control, Benefits realisation and risk. • Horizon scanning • . Cross-cutting involvement of senior managers across workstreams in particular Service Alignment and Improvement • Quarterly reporting to Programme Board • PMO engagement and participation with Integrated Care System Governance • Modelling of interdependencies between programmes, reflected in respective plans • Active consideration within the emerging Target Operating Model • Consideration of a review of Governance of CSC and ASC • Ongoing comms with the service • Experience gained from other councils going through LGR taken into consideration in approach 	13
111	The risk of overspend on the £16.5 m LGR implementation budget	<ul style="list-style-type: none"> • Higher than anticipated LGR programme costs and redundancy payments • Reduction to reserves and longer payback on the Business Case 	20	<ul style="list-style-type: none"> • The approved commitments are being challenged if the funding has not be fully committed to ensure the bid is still required, if it is not or can be reduced this will make more funds available for the programme. • Work is underway to revisit the redundancy figures 	19

LGR Joint Scrutiny Committee – 19th August 2022

As requested by LGR Implementation Board, programme level risks were presented to Joint Scrutiny on 19th August

- As a first report, very much an introduction to the risks for the programme, set in context against an overview of the programme and an overview of the quality assurance report from PwC
- There were a number of comments made as can be seen on the next slide
- There were a number of potential areas for risk identified as can be seen on subsequent slide
- The overall conclusion of the committee was that they wish to look at 3 risks in greater depth including
 1. Risk 10 – Budget Gap
 2. Risk 11 – Insufficient People resources
 3. Risk 12 – Loss of staff
- At the next committee meeting on 30th September will look at these 3 risks in particular as well as an update on programme level risks

LGR Joint Scrutiny Committee – 19th August 2022

Commentary made

Page 42

Comments made by committee	Response from Programme Director and Programme Manager
<p>Staffing: Loss of staff, insufficient people resources, services/areas where there are resource pressures, training</p>	<ul style="list-style-type: none"> - Staff engagement - LGR newsletter, FAQ's, staff surveys - Agreement around mutual aid - Scorecard monthly update of resources and where pressures are - Implementation budget for additional resource if deemed necessary - Development of T1 products that will ensure smooth staff transition - People change identified and work under way to ensure staff readiness for change
<p>Finance: Impact of inflation, rising costs, the level of the residual score</p>	<ul style="list-style-type: none"> - Inflation, increased costs all part of the ongoing development of the budget for the new Council - Risk 1- Budget Gap - Residual score hasn't reduced - whilst the mitigation is considered to be appropriate the residual score should not be reduced at this stage until the effectiveness of the actions can be quantified.

LGR Joint Scrutiny Committee – 19th August 2022

Areas for potential risk:

Comments made by committee	Response from Risk Manager
Impact of inflation	Considered to be part of Risk 10 – Budget gap
BAU impacts on LGR	Risk 25 – The risk that BAU activity within the Councils is impacted by stretched staff resources balancing LGR and BAU work – covers this risk. Further each Council within their own risk registers recognises the pressure of BAU and LGR work on staff and each work to mitigation this as much as can be done
Staff - culture and ways of working	People workstream risk - Building relationships, new team set up and cohesive workforce – being mitigated through People sub-workstream wellbeing and ways of working.
Impact on residents – want day one to be a positive experience	Risk 19 recognises the need for the community as a central of the operating model, further work is needed to consider whether a further risk is needed and how we can mitigate this across the programme
Engagement with Town and Parish Councils	Currently investigating to see whether this is a risk to the programme or linked to the Bridgwater Pilot in particular

Recommendations and decisions

That the LGR Implementation Board

1. Note the 19 risk now on the programme level register
2. Note the new emerging risk
3. Note the feedback from LGR Joint Scrutiny and the work that the committee will be doing at the next meeting to look in depth at 3 risks in particular
4. To identify anything further the committee wish to consider as a risk for the programme

Together we are delivering your

New Somerset Council

Local Community Networks: consultation update and review

Jan Stafford, Kate Hellard, Frances Gully

Local Community Networks (LCN) Consultation

September 2022

Authors:

**Kate Hellard / LCN
Development Team**

Purpose of the report and key points for discussion:

- To provide an update on consultation process, engagement and feedback to date
- To seek responses from members of the LGR Implementation Board and Joint Scrutiny Board to the consultation
- To provide a summary of the next steps and timescales following the consultation exercise.

The Consultation – Launch and Support

- Launched on 5 September 2022, runs to 17 October 2022
- Accessed via www.newsomersetcouncil.org.uk
- Supported by dedicated comms and engagement activities including:
 - detailed and regularly updated FAQs
 - briefing packs
 - Dedicated inbox LCN@somerset.gov.uk for queries
 - drop in sessions for Members, Town, City and Parish Councils and stakeholders
 - Working with SPARK to engage VCSE
 - social media posts

The Consultation - current picture

- 108 responses as at 20 September 2022 (two weeks since launch)
- Responses from a range of individuals, partners and stakeholder groups
- Significant amount of narrative feedback
- Initial system 'glitches' identified early on and addressed
- Fast turnaround of responses to queries, including provision of further information and updating of FAQs
- PDF version of survey added to website as a reference to aid completion

The Consultation - Scope

- Three key aspects to the consultation:
 - Function – what roles and responsibilities the LCNs can have in the first and subsequent years of Somerset Council.
 - Form – development of options for the LCN boundaries, using geographies, populations and existing democratic boundaries, Local Plans and community infrastructure.
 - Participation – are there barriers that we need to be aware of and address
 - Name – whether ‘Local Community Network’ is the right name
- The following slides mirror the questions in the survey and we invite this Board’s responses to each

The aims for LCNs

Respondents are asked to indicate the importance of the following:

- Ensure the countywide unitary council remains responsive to local needs
- Improve outcomes for residents
- Provide a mechanism for local action
- Promote active community decision making

Possible Responsibilities of LCNs

Respondents are asked to consider how important the following are, using a five point scale from very to not at all important:

- A forum for local discussion, listening, action, consultation and oversight. A community forum, a community voice.
- Bring together the Council, partners and communities to work together to achieve local ambitions and improve outcomes
- Be local data and community evidence driven - addressing local issues and priorities
- Act as Executive committees, core to how we recognise and respond to a variety of needs
- Promote active community decision making, provide a focus for local engagement and a way to engage more young people
- A forum for digital leadership (e.g. Parish Online)
- Support and align with Planning and Licensing (to be explored further)
- Support Asset of Community Value panels
- Access to and administer community grants (including climate change grants)
- Local initiatives to support prevention activities
- Promote and prioritise minor works locally

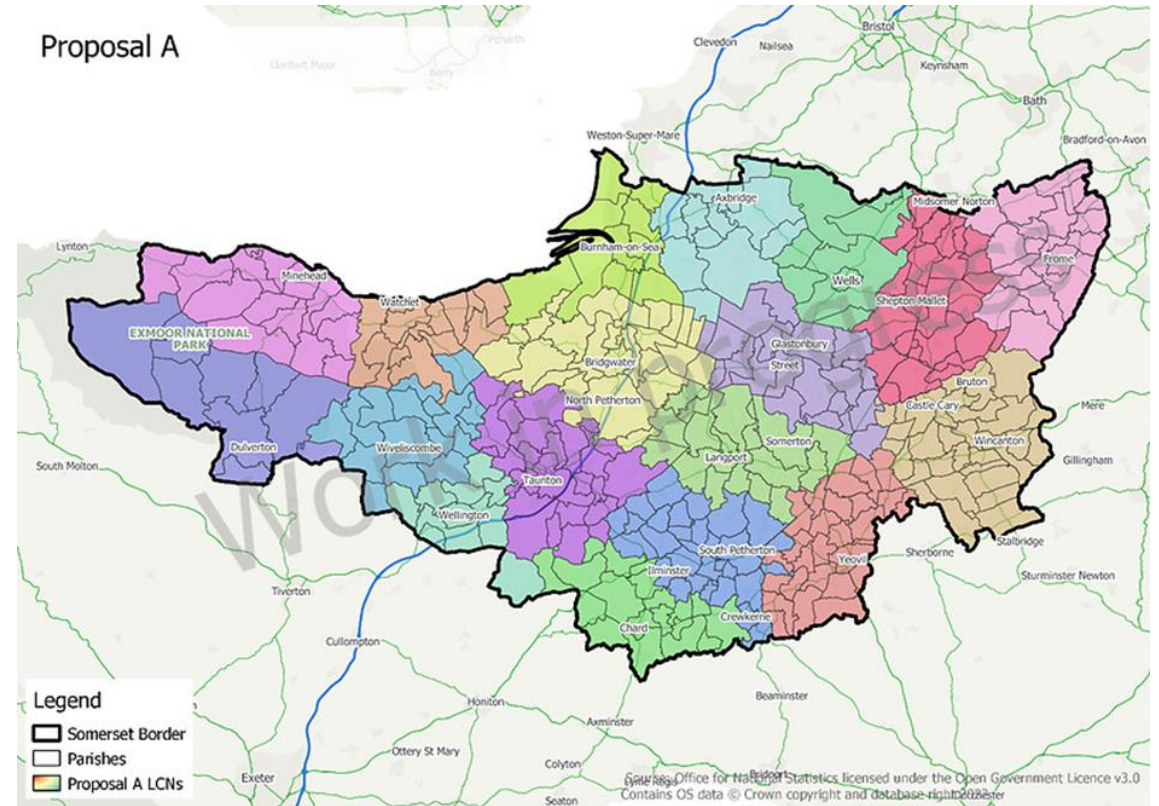

Boundary Proposals

There are 3 boundary proposals. Respondents are asked to comment on each one. Proposals developed using the following criteria:

- **Population** – we looked at how balanced the population numbers were in each LCN, how important or not is it that they have similar numbers of residents in each area
- **Geographies** – how similar in size of area they were, and their distribution/spread across Somerset
- **Electoral Divisions** – the number of Unitary Electoral divisions, and how they split within, and across, LCN boundaries
- **Deprivation** – using indices of multiple deprivation, we looked at how the most and least deprived areas were distributed
- **Community Facilities, eg. Libraries** – we looked at where these were situated
- **Health** – we compared the ‘fit’ of Primary Care Network (PCN) boundaries to LCN boundaries
- **Secondary School Catchment Areas** – we checked how these were split in relation to LCNs, recognising schools are often at the heart of communities
- **Travel to Work Area** – we looked at their alignment to LCN areas
- **Current Local Plan Geographies** – we looked at their alignment to LCN areas

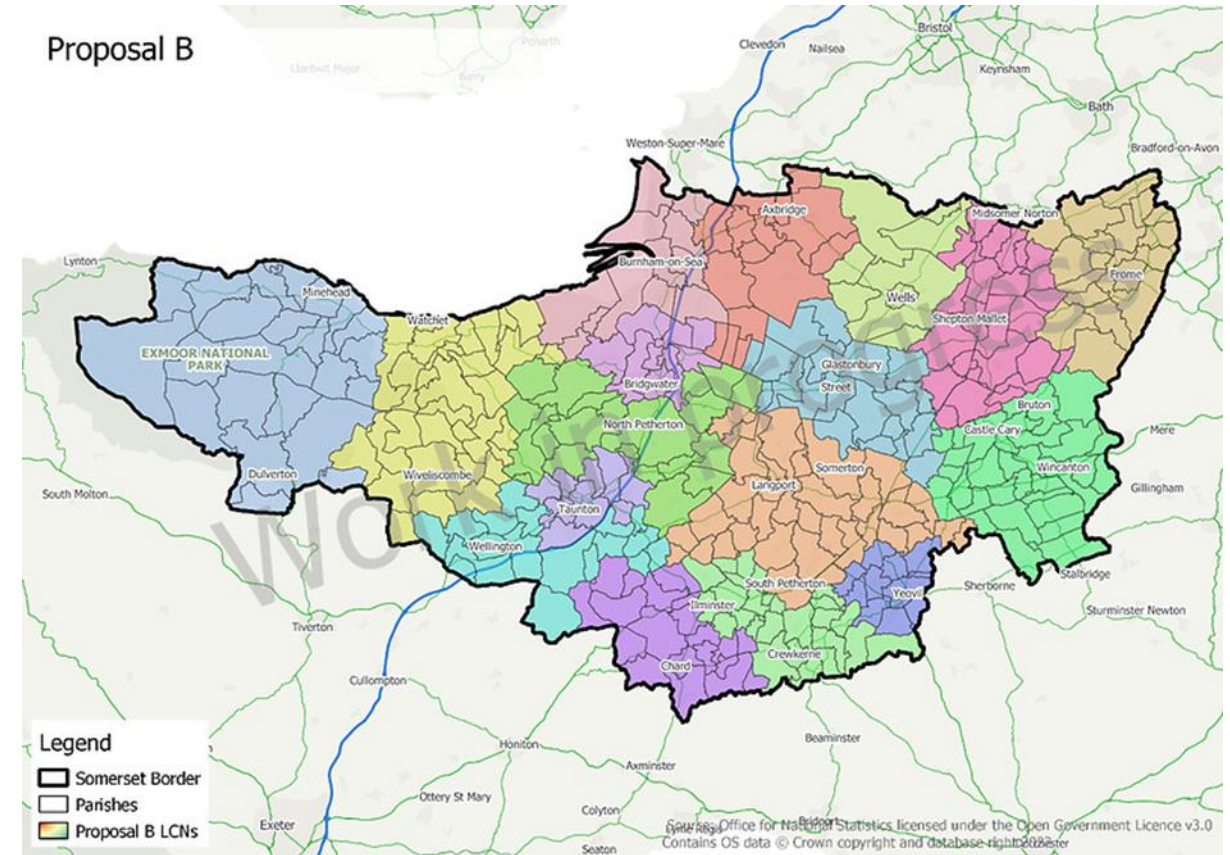

Proposal A

- In this proposal, there would be 18 LCNs all a similar size in terms of area giving an even coverage across the county
- The population is not spread evenly across the county, and this results in a wide population size spread across the LCNs
- Many electoral divisions sit within one LCN with 15 sitting across 2 LCNs, 6 across 3, and 2 across 4 LCNs
- Most deprived areas sit within major population centres, and these remain similar across all proposals
- All LCNs contain at least one library with several containing 2 or more
- The majority of LCNs overlap between 2 and 4 PCNs
- The majority of LCNs overlap between 3 -5 secondary school catchment areas. 4 LCNs overlap 7 or 8 catchments areas
- Matches some existing Local Plan geographies

Proposal B

- In this proposal, there would be 17 LCN areas
- This proposal balances the population across LCNs
- The area between Taunton and Bridgwater lacks a natural community identity
- Many electoral divisions sit within one LCN with 16 sitting across 2 LCNs, 5 across 3, and 3 across 4 LCNs
- Most deprived areas sit within major population centres, and these remain similar across all proposals
- All LCNs contain at least one library with several containing 2 or more
- The majority of LCNs overlap between 2 and 4 PCNs
- Many LCNs overlap between 3-5 secondary school catchment areas
- Matches some existing Local Plan geographies

Proposal C

- In this proposal, there would be 10 LCNs
- Generally, a good fit maintained with parish boundaries
- Population is well balanced across 9 of the 10 LCNs, where population ranges from 50,000 to 65,000. However, area to the west of Somerset is significantly lower at 35,005
- The LCN around the largest towns of Yeovil and Taunton is smaller in terms of area
- Large single area to the west of Somerset
- Note 'horseshoe' area wrapping the south of Taunton
- Strong fit with electoral divisions
- Most deprived areas sit within major population centres, and these remain similar across all proposals
- All LCNs contain at least one library with several containing 2 or more, due to the larger geographical size in this proposal, 4 LCNs contain 4+ libraries each
- Many of the LCNs overlap between 2 and 4 PCNs
- Many LCNs overlap between 3-6 secondary school catchment areas, no LCNs in this proposal match a single catchment area
- A close match with existing Local Plan Geographies, meaning that in the short to medium term LCNs would each work only with one Local Plan

Participation in LCNs

The survey narrative explains that LCNs are expected to meet 6 to 8 times a year in their local areas. Each LCN will be delegated authority to agree their own schedule of dates, within the context of the calendar for other public meetings.

Respondents are asked if they can you foresee any barriers to participation in LCNs.

What shall we call LCNs

Local Community Networks (LCNs) has been a working name. What do you think they should be called?

Respondents are asked to indicate their preference or provide an alternative.

- Local Community Networks
- Community Partnerships
- Community Boards
- Other

Personal information

To ensure we have gathered the views of interested parties across the whole of Somerset we are gathering some basic information.

We will not be using this information to identify individuals.

Timeframe / Next steps

- The consultation is open until the 17th October
- The City, Town and Parish conference will take place on the 4th October
- Further member, stakeholder and parish briefings online throughout the consultation
- Drop-in sessions around the county, placed in each of the District Offices.
- When the consultation closes the feedback will be collated and included in a report to the Executive Board on the 16th November
- The report will also include initial evaluation of the LCN Pilots, evaluation of similar models in other unitary authorities and what they have learnt, and recommendations regarding boundaries and broad infrastructure for the establishment of LCNs in Somerset.
