Item 5: Key Issues

- Policy context and the principle of the development
- Impact on the living conditions of local residents – noise, dust, vibration
- Impact on the amenity of the local area – landscape and visual impact, footpaths
- Impact on the environment- groundwater and flood risk, ecology and habitats, climate change
- Traffic and highways matters

Item 5: Officers Recommendation

- It is recommended that planning permission be granted subject to the conditions set out in section 10 of this report
- The prior completion by the applicant and all other parties as necessary of a Section 106 Agreement to secure ecological mitigation including - provision of a minimum of 2.05 hectares of woodland planting and 2.8ha of grassland reversion accessible to greater horseshoe bats to comprise: 2.05ha native woodland / woodland buffer planting; 0.10ha native woodland planting in the grassland reversion site; 0.12ha of buffer planting alongside the undesignated woodland to the south of Asham Woods; 2.8ha of grassland reversion; and 310m of hedgerow enhancement. The habitat should be broadly consistent with the Ecological Enhancement Plan as contained within the shadow HRA (SLR, 2023).
- Landscape and Ecological Management Plan (LEMP).
- Programme of implementation.
- Long-term maintenance and management scheme for the woodland planting and grassland reversion, to include legal and financial mechanisms.
- Water monitoring and other measures in line with those agreed for the main site (application reference 2010/0984) contained in the section 106 agreement dated 7th August 2012
- Provision for future maintenance of the bridleway diversion
- The works associated with the diversion of the bridleway SM8/11/1 iii authority to undertake any minor non-material editing which may be necessary to the wording of those conditions being delegated to the Service Director.
