

Somerset SEND Local Area Standard Statement of Action (WSoA) Review Meeting Report

16th March 2020

1.	General update on progress or areas of significant impact on the local area
1.1	SEND Services across the 'Local Area' - Somerset County Council (SCC) & Somerset Clinical Commissioning Group (SCCG) were inspected by OFSTED (Office for Standards in Education) and CQC (Care Quality Commission) in March 2020. The Inspection Report was published on 27 th May 2020.
1.2	The inspectors found that SEND Services across the local area required significant improvement across nine areas and determined that a Written Statement of Action (WSoA) for improvement was required. Following publication of the report, work commenced on co-producing the WSoA, which was uniquely challenging due to the constraints of virtual working required as a result of Covid-19.
1.3	The WSoA was approved for publication by Inspectors on 30 th November 2020 and was published on 1 st December. The full WSoA is available on the <u>Local Offer website</u> . It is highly ambitious but must be in order to address the shortcomings in the system and to improve the offer for children and young people with SEND, and their families.
1.4	The WSoA is monitored monthly through the SEND Improvement Board (SIB) comprising members from across the local area. Terms of reference and monitoring reports presented to the SIB are published on the Local Offer website. The WSoA contains nine Improvement Priority (IP) areas linked to the nine areas of weakness. Each IP area has a responsible lead from different parts of the system who reports on the progress of their area and any linked work cutting across the WSoA.
1.5	We are actively engaging and listing to children and young people with SEND and their families across all activity in the WSoA. As outlined within IP1 and our presentation we are holding regular listening and co- production events and are ensuring the voice of our young people and the Somerset Parent Career Forum is heard every month at the SIB. In addition, we produce a regular SEND Newsletter for the local area, publish it on the Local Offer website and hold question and answer webinars for young people, parents and staff.

1.6	To oversee development and delivery of the WSoA, the SIB was refreshed, both in terms of its membership and work, to be certain we focused on improvement against the priority areas. We did this to gather regular feedback from young people and families and to ensure effective challenge and collective responsibilities by all members. In addition, the local area has implemented a Children's Executive Group (CEG) to allow speedy joint resource allocation, decision-making and issue resolution to facilitate delivery of WSoA.
	 There have been seven SIB meetings since the inspection. Its work programme has included: Review and endorsement of the WSoA. Reporting arrangements and adoption of joint SCCG/SCC risk. register and approach for the SEND Local Area. A change control process has been put in place. Individual priority area 'checkpoints' for: Endorsement of recommendations for improving engagement of families and increasing feedback and leadership commitment to supporting key engagement events. Approval of interim Multi-Disciplinary Triage (MDT) solution as a first step to improving the autism pathway. Agreement to proceed with implementing the Institute of Public Care and Oxford Brooks University recommendations for improved joint commissioning. Spotlight on conversations covering IP1 (young people & families' engagement), IP2 (leadership & culture), IP4 (joint commissioning) and IP5 (autism pathway). Understanding the lived experience including: "Unstoppables" feedback - experiences in education, language around SEND (reminding professionals to be mindful of the terminology they use). Review of individual family case studies.
	 Member reports from NHS providers, Public Health and schools representatives outlining what is going well, what is not going as well, and what they feel what would help make it better.
1.7	This report and the accompanying presentation outline early progress against the nine improvement priority areas agreed within the WSoA and the impact this progress is having (where possible at this early stage) on our children and young people with SEND and their families. Progress

	
	has been broken down in detail by each of the IP Areas. Some examples
	are as follows:
	• IP1: Families feel heard and are starting to see the impact of this work. As an area we have a clearer understanding of the barriers to engagement allowing us to support practitioners by providing them with the tools they need.
	 IP2: Leaders are working with and listening to children, young people and families.
	 IP3: We resolve problems together and using data more effectively.
	 IP4: Children, young people their families and practitioners feel the benefit of better commissioning.
	 IP5: Parents and carers value MDT Triage, now rolled-out across most parts of Somerset.
	 IP6: 'Hearts and minds' work with schools shows early signs of commitment: we know more needs to be done.
	• IP7: A breakthrough in data management using NHS numbers will make assessment easier, clearer and more consistent.
	• IP8: Consistent improvement of timeliness in issuing Education Health and Care Plans (EHCP) over the past year, and backlog cleared.
	• IP9: Better quality assurance in place - service users expected to feel the benefit in coming months including through giving feedback.
1.8	Challenges and risks to the delivery of the WsoA have been identified
1.0	and mitigating action agreed. Some of the high-level challenges are as follows:
	Capacity issues linked with the COVID19 pandemic and the
	ambitious nature of the WSoA may restrict the ability of the Local
	Area to deliver SEND improvement effectively and within the timeframe agreed.
	 There is a risk that the local area is unable to deliver the
	expectations of children, young people with SEND and families as outlined in the WSoA.
	 Maintaining a robust engagement and communication plan to ensure continued engagement across the Local areas.
	 The need to develop the SEND system knowledge required to deliver the level of change required for WSoA.
	 The ongoing organisational change, such as the Integrated Care System (ICS) and the move to a unitary local government in

	Somerset, will ne across the WSo.	eed to be carefully managed to maintain progress					
1.9	 Improvement across the Local Area relies on those milestones agreed within WSoA and wider work which has also been identified as required by the local area. This includes: Relaunch of Early Help Processes in Schools. Launched an app called 'MeeTwo', which provides peer support for young people experiencing mental health difficulties. Mental Health Trail Blazer projects have been launched in pilot areas supporting pupils with emotional health and wellbeing. Increased capacity of the SENDIAS (Special Educational Needs and Disabilities Information Advice and Support) service. Redesigned guidance to ensure workers take a graduated response to interventions with families, ensuring families with SEND are treated fairly. A single point of contact for parents seeking SEND advice, support and guidance from the local authority has been established. 						
2.	WSoA Actions/timescale check						
2.1		risk of becoming behin					
	Milestone	risk of becoming behi Reason	Mitigation/remedial action				
2.1 IP1.5.3		risk of becoming behin	Mitigation/remedial				

		necessarily meet families' needs.	and planning to ensure user engagement is
155 4 4			being developed.
IP5.1.6	Embed and extend the established interim solution which uses a multi-agency triage process to assess referrals into the neuro- developmental and Autism Spectrum Disorder (ASD)/ Attention Deficit Hyperactivity Disorder (ADHD) pathway to identify those children requiring autism assessments to ensure consistency and equity across Somerset.	Lack of data is impacting the ability to baseline and build targets/metrics into planning, redesign, and monitoring.	Additional funding is being released to implement county wide MDT Triage to ensure consistency of offer.
	(Due - April 2021)		
IP6.1.2	Inquiry evidence gathering and site visits which build upon the recent Scrutiny inquiry into the impact of exclusions is completed. (Due - April 2021)	Identification and recruitment of external expertise to SEND Panel took longer than expected, with knock on impact to commencement of inquiry.	Engagement activities, communications and data collection systems are being finalised. Supporting communications drafted and awaiting approval.
IP6.3.1	Schools' associations have recruited schools to peer network programmes to raise the profile and quality of SEND provision across localities through a supporting process of self-evaluation action planning and peer coaching (Overdue - December 2020)	Time required for schools to consider options, against backdrop of Covid-19 response, together with adoption of 'Whole Education' peer review programme which is recommended to run in line with academic year. The most suitable option is for programme to launch in September 2021.	Continuing promotion of 'Whole Education' programme to maximise schools sign up. Business Case to be developed to support county-wide costs Change request to be raised to re-set remaining milestones and timelines for IP action 6.3 in line with the 'Whole Education' peer review programme.

		Associations are	
		collating expressions of interest, though costs are yet to be agreed.	
IP6.3.2	(Peer network) Participant schools complete online self- evaluation and action planning. (Due - April 2021)	Impacted by delay to IP6.3.1	Change request to come to SIB.
IP6.3.3	Quality assurance support for participant schools is available to check action plans reflect statutory requirements and best practice. (Due - August 2021)	Impacted by delay to IP6.3.1	Change request to come to SIB.
IP6.3.4	Learning from across the programme is analysed and shared across the school system. (Due - December 2021)	Impacted by delay to IP6.3.1	Change request to come to SIB.
IP8.1.1	Statutory Assessment information and workforce development learning resources are created and made available online. (Due - April 2021)	Recruitment of Officer is underway but unlikely to be in post until May 2021.	We are identifying pre- existing training materials that can be stood up more quickly than new resources. Work is also underway to test requirements to inform prioritisation of training and what is important to developing confidence across teams. This will help understanding of expected completion date.
IP8.4.1	Performance reporting is in place for statutory advices Educational Advice (App B), Educational Psychology (App D), Social Care (App E)	Developing the Capita reports, to report on submissions via the Professionals Portal, has been more technically challenging than	Business Support Application Team and Information App Support teams are prioritising this area of work. All statutory reports are expected to

and Children & Young People Therapy Services (CYPTS) (App F) enabling the local area to identify opportunities for improvement in timeliness of these submissions, which will include escalation	anticipated with each report needing to be individually developed on an agency by agency basis.	be available by end of March. The impact of this overall will not be significant to the project.
,		
(Overdue - December 2020)		

3.	Supp	Support received in this reporting period								
	IP Area	Provider	Support/Activity	Impact/Outcomes from the activity						
3.1	IP1	Independent Provider of Special Education Advice (IPSEA)	IPSEA engagement and training event for parents completed. IPSEA are now producing a report and the supporting wider parent survey is currently open.	Information and skills for parents to build confidence in local area practice.						
3.2	IP2	NHS England Leadership Academy	Gained funding from NHS Leadership Academy for two elements of a leadership and culture programme. One element for the hierarchical top leaders and one element for approximately 100 individuals ('Culture Carriers') system wide.	Coproduced content that is shared and understood. Network events to build resilience. Commonality of vision, behaviours and increase in engagement will provide a better experience for service users and their families. Reduction in blame culture and increase in joined-up approach.						
3.3	IP3	South West Academic Health Science Network (SWAHSN) and Somerset	Facilitated support to train individuals and project groups to Bronze and Silver level in QI Methodology. Training is available for professionals across the system and is	Too early to demonstrate impact across the SEND system, but coaching is also available for anyone wishing to use the methodology to manage their improvement work within the WSoA work.						

		Quality Improvement (QI) Faculty	available on a regular basis to ensure availability.	Elements have of the training have been used to understand the problems we are trying to solve in some areas, such as Customer Journey Mapping in IP5.
3.4	IP4	Institute of Public care (IPC) and Oxford Brookes University	An independent review of joint commissioning in Somerset with a focus on the SEND system.	Based on the results of the independent review of joint commissioning, an analysis of options, preferences and recommended ways forward is completed and potential implications for other areas of joint commissioning such as community health, public health, children and adult social care, schools, mental health and wellbeing are identified across the system.
3.5	IP6	SEND Panel – external expertise	The panel is managing and driving the inquiry - agreeing terms of reference, scope, comms, timetable etc, and will be helping to review and collate the evidence. Critical friends are supporting and reviewing at different points in time who are national experts.	We will have developed an evidence-based understanding of what good inclusive practice looks like that is school- driven, detailed, specific and relevant to the size, type and phase of school.

WSoA Strand Progress

IF	Area 1	Work more closely with children and young people with SEND and their families to understand and learn from their experiences when formulating strategies to improve the area.				
a) b)	The lack of SEND and Progress	es identified by Ofsted/CQC of focus on the experiences of children and young people with d their families when formulating strategies to improve the area. on key actions ractitioners have contributed to help us better understand the				
	barrie influe partic	rs to effective engagement with families. This will be used to nce the ongoing development of the coproduction framework and ipation toolkit. (linked to IP2) ugh alignment of the IP1 group and the communications work we				
	are in share • The S	nproving our understanding of the opportunities that families have to their experiences. END Improvement Board receive monthly feedback and case				
	leade Lister 	es from families to ensure their experiences are at the forefront of r's minds. (linked to IP2) ning events with leaders have taken place focusing on the WSOA, ADHD, EHCP, Therapies, Outcomes Framework. (Linked to all IP				
	areas the S). These events are influencing the shaping of those services and END Strategy. (IP1.4) .ocal Offer has been and continues to be developed to provide				
	inform chanç	nation on the progress of the WSOA, ways to get involved and ges that have resulted from feedback. (Linked to all IP areas) nation sharing agreements are in place and the NHS number is				
	 Information sharing agreements are in place and the Nito number is linked with casework systems for Youth Justice, adult social care and Capita, with work underway for children's social care systems. Structures are in place to effectively use the Local Offer to feedback to 					
c)	Impact fo	es and practitioners on the Local Offer. r Children, Young People and Families				
	cleare tools	ive engagement with families should improve as a result of a er understanding of the barrier and practitioners being provided with to support them to overcome these. lignment of IP1 and communications will enable us to support a 'tell				
	it onc	e' culture where information collected is fed into various treams.				

- Work undertaken in IP1.5 has created the foundation to build upon, to design a system which supports a tell it once approach at an individual level.
- Improvements to the local offer will enable families to access good quality information and advice which should improve their journey through the SEND system.
- Families are starting to feel heard and can see how they are an can influence the development of local services. Event topics have been directly influenced by subjects that are important to families, ie Education, EHCPs and Autism Spectrum Disorder.

d) Evidence that demonstrates this impact

- Feedback from parents has shown they are pleased to have had an opportunity to get involved through engagement events. We are also seeing new families getting involved.
- Feedback from engagement events has led to series of recommendations which all agencies have signed up to which will ensure all families involved are clear about their role in engagement events and how their feedback is used.
- Parents can see the direct impact that their involvement has had, for example new health pathways on the Local Offer (IP7) and clarity around vaccinations for unpaid carers.
- A quote from a parent:

"Thank you for the opportunity to speak to you in this way. just wanted to say that I am exhausted with the battle that it takes to look after my child with complex needs. After diagnosis (which can take years in this County for neurodevelopmental conditions) you are left with the grief of the diagnosis, which can really impact parents' mental health. No-one picks up parents, no-one offers anything, for us we didn't even get a leaflet... we were just left to fall apart and then because of that we find we have no energy to support our child effectively. When we all go home tonight, please remember the work you do and the changes you can make can really change lives. Parents in Somerset need support; support with mapped pathways, support post diagnosis and ongoing support."

- Q&A session feedback

e) Key next steps

• Coproduction Framework designed and launched. A significant amount of work has already taken place to ensure alignment across the area and shared use of language to describe involvement of families. (linked with IP6)

- Local Offer moves into discovery stage to identify improvement and align with SCC main website to improve functionality following user feedback. The 6-monthly auditing will support this development work. Further health pathways to be published including annual health checks and the refresh of the EHCP area is underway. (linked to IP7 & 8)
- "360 survey" is aligned to the WSOA and launched.
- Reports from previous events to be published and further engagement events planned, including ADHD/ASD, Inclusion Inquiry. (linked to all IP areas)

f) Areas of Concern / Barriers

• Communications and engagement work not being aligned across the plan has led to multiple events being scheduled in a short period of time which might impact on levels of engagement. This is further compounded by the speed of change required in the WSoA and how this could impact on effective engagement.

Benefit	ID	IP Ref	Current Baseline	Value (Target)	Units of Measurement	Delivery Date	Date of Latest Measur e	Latest Measure	RAG Rating	Latest Measure Notes	Owner
Number of CYP and Parent Carers reporting that services are meeting the needs of the child or young person	62	1	17.00	50.00	minimum %	31 July 2022				360 survey - annual survey, first results due in July 2021	Ruth Hobbs

IP Area 2		Further improve leadership capacity across area services.
a)	The issu	es identified by Ofsted/CQC
,		of leadership capacity across area services.
b)	 Scopenga diag your Gain lead lead Carr We a of de under 	s on key actions bing of workforce carried out to understand the scale of agement required for skills audit – our workforce 'bubbles ram'. This has been fed into survey design and questions for ag person/parent carer and practitioner surveys. (IP2.1) bed funding from NHS Leadership Academy for two elements of a ership & culture programme. One element for the hierarchical top ers and one element for approximately 100 individuals ('Culture iers') system wide. These sessions will start from the Autumn 2021. are currently co-producing the content. Sessions will run with a mix elegates from across the system to build a network and wider erstanding and appreciation of each other's roles and onsibilities within the SEND system in Somerset. It is anticipated
	that and Impr also • Bron	some projects of work will come from the Culture Carriers elements that these will be reported on back to the Somerset SEND ovement Network (SSIN) and via the CEG and SIB. Potential to have project sponsors via the top leader's group. (IP2.1 and IP2.2) aze Quality Improvement (QI) training established, being used with re project groups (2 so far) and is now part of our ongoing offer.
c)	 To d is wi what who in im fami subs Copt build enga fami appr Shat 	or Children, Young People and Families ate there has been no shared understanding or agreement of who thin the SEND workforce across Somerset, where they are and t they can offer. This knowledge will ensure all involved understand is in the system and what they offer/bring to it, resulting proved solutions being found for young people and their lies. The regular surveys will enable benchmarking and sequent improvements to be tracked. (IP2.1) roduced content that is shared and understood. Network events to agement will provide a better experience for service users and their lies. Reduction in blame culture and increased joined-up roach. (IP2.1 and 2.2) red QI knowledge/systems and projects being set up as ovement projects. (IP2.3)
d)	SEN of thQI m	e that demonstrates this impact D workforce data mapping completed and informing membership e SEND Improvement Network (SSIN). (IP2.1) nethodology capability and capacity is established to support
	appl	ied learning across the WSoA. Evidence demonstrates that the

higher the level of engagement across a workforce the better the experience is received from service user. (IP2.3)

e) Key next steps

- Establish and use the SSIN session in April 2021 to socialise the leadership and culture work further and share the workforce 'bubbles diagram' to agree final sign off. (IPs 2.1.4, 2.2.4 and 2.2.6)
- Use the network created via SSIN and the bubbles diagram to focus on establishing our skills shortages and vacancies information required in IP2.1.5 and areas of acute resource competition or scarcity in IP2.2.2. (IP's 2.1.4, 2.1.5 and 2.2.2)
- Support the finalisation of the IP1 survey to benchmark current data and feedback. (IP2.1.2)
- Continue to co-produce and plan for Culture Carriers development roll out from September 2021. (IP's2.2.6 and 2.2.4)
- Agree content and approach to senior leader's development based on coproduction of Culture Carriers work. (IP's 2.2.6 and 2.2.4)

f) Areas of Concern / Barriers

• Ability for the SEND workforce to be released to attend various workforce development programmes, QI etc due to work pressures, exacerbated by COVID, vaccination and testing programmes and lockdown.

Children, young people and their families report there is a shared understanding across the workforce of different statutory responsibilities	65	2	30.00	50.00	minimum %	31 Ju 202				360 survey - annual survey, first results due in July 2021	e Melissa Fairhurst

IP Are	a 3	Continue to strengthen and embed partnership working across Education, Health and Social Care
a)	The	issues identified by Ofsted/CQC
	Wea	ak partnership working between services across education, health and
	care).
	_	
b)		gress on key actions
		Progressing with the compliance against the Code of Practice, cross referencing this with the WSoA and clarifying roles and responsibilities.
		Seen as good practice nationally and our template is being used by
		other local authorities. (IP3.1)
		Progressing audit of current arrangements for joint funding. (IP3.1)
		CEG meeting on a monthly basis to ensure appropriate escalation
		process for risks, issues and resources. Effectiveness to be reviewed in
		April 2021. (IP3.2)
		Shared SEND risk register in place and monitored through the CEG. (IP
		3.2)
		Review of the Somerset SEND joint strategic needs assessment and introduction of a benefits system to improve and automate reporting
		capabilities. (IP3.2)
		Co-production events and engagement with families and professionals
		underway. On track for completion by end of April 2021. (IP3.4)
		Progressing families' and professional engagement in development of
		the Outcomes Framework. Although at an early stage, families' views
		are aligning with the staff views from the Council for Disabled Children
		(CDC) work.
		We have looked a best practice nationally and are considering the data sets that will be needed to measure performance against the agreed
		outcomes. (IP3.4)
c)	Imp	act for Children, Young People and Families
		We will have a better agreed Local Area understating of the needs of our
		children, young people with SEND and their families.
		We will have measurable outcomes agreed to ensure we know we are
		delivering the right services in the right way at the right time.
		We have a system for tracking our benefits and measures to ensure we know that the work we are doing is making the difference we expect.
	r	the unat the work we are doing is making the unerence we expect.
d)	Evic	lence that demonstrates this impact
-		Ne are measuring performance against the data available on a monthly
		pasis and are strengthening our approach through our refreshed
		Somerset SEND Joint Strategic Needs Assessment (JSNA).
		Area development session with the Delivering Better Outcomes Team
	,	DBOT) to understand best practice and co-produce a plan to develop a ramework. We will ensure the framework is measurable.
		The views of parents and practitioners (including area leaders) are
		aligned for the outcomes framework, evidencing an improved
		inderstanding of what is important to families.
		14

- Benefits Management System is in place and measuring improvement over time against our key measures.
- Addressing our data gaps has been slow but we expect progress with the addition of the NHS number on local authority systems and improved partnership working.

e) Key next steps

- Alignment of 'whole system QA principles' (IP3.3) with joint commissioning quality assurance activity (IP4) and development of practice standards (IP9).
- Completion of an overarching SEND strategy as an umbrella document for all other strategies agreed within the WSoA.
- A measurable outcomes framework.
- Creating a live document available on the local offer to ensure clarify of system roles and responsibilities.
- Refresh the SEND charter as a protocol for making changes to services in line with relevant legislation.
- Progress the creation of a Memorandum of Understanding agreeing how we will work together and for the creation of joint posts.

f) Areas of Concern / Barriers

• Chasing inputs to complete self-evaluation against Code of Practice (Self Evaluation Framework - SEF) and mapping areas of noncompliance against WSoA is taking longer than expected due to capacity constraints but is still on track.

WSoA Theme	Benefit Owner	Benefit Category	Improvement Priority Area	Measure / indicator of success	Target Timescale

CG, SCC and schools are working to identify and align contracts that ver services to SEND children and young people provided by health, al care and education to enable joint reviews and a collaborative roach. This will allow further understanding of overlaps and gaps and review to ensure better use of resources and better joint working. rterly contract reviews of quality and performance with providers and service users to understand the impact of service delivery, identify inform service delivery and opportunities and any appropriate overy measures. This includes assessing the impact and benefit of commissioning.

- A review of joint financial resources is completed, and the findings shared with senior leaders. Mechanisms have been identified to support and manage resources within a single local area system.
- Patient stories, coproduction events, listening events, compliments.

e) Key next steps

- Personal Budget Policy by April 2021.
- Joint commissioning Strategy April 2021.
- Heat Maps current therapy service June 2021.
- Needs assessment of children who experience trauma.

f) Areas of Concern / Barriers

- Ability to review service contracts is potentially constrained by COVID19 imperatives.
- Workforce to deliver changes.
- Pausing of interlinked ICS joint commissioning work may constrain work within IP4.
- Learning from complaints.
- Mapping private therapy activity in schools.

	An ineffe	ective assessment pathway for autistic spectrum conditions.									
h)	b) Progress on key actions										
N)	-	analysis of pre-assessment pathway and early help. Outputs inform									
		commissioning.									
		esign of pre-assessment nearly completed including significant									
		gement from education settings. Publication due April 2021.									
		eholder engagement and co-production events including									
	•	gement from parents, carers and children and young people.									
		unty wide interim MDT Triage solution to support a holistic test and approach to referrals, to be in place by April 2021.									
		ling opportunity has been launched, with decisions supported by in h peer reviews.									
		w referral form - the 'Next Steps' form - has been designed to									
		ort the route to an assessment for autism and/or ADHD. 'Test and n' to begin April 2021.									
	 Spec 	cific focus and prioritisation given to fluid transition points between									
	•	assessment and assessment pathway, to create a complete and tic pathway.									
c)	•	for Children, Young People and Families									
	•	ificant increase in access to pathway for two-thirds of the County. argest provider is now accepting additional referrals via MDT Triage									
		managing increasing demand.									
		back surveys indicate that parents and carers may not have been									
		aware of the MDT Triage referral pathway, but highly value the									
		ssment their child received and are very supportive of the									
	appro	oach.									
d)	Evidenc	ce that demonstrates this impact									
uj		erset Foundation Trust (Taunton) has had a Multi-Disciplinary									
		je (MDT) Team in place since April 2020.									
	-	69 Referrals received, 62% referral triaged (41% accepted for									
	a	ssessment, 59% not appropriate for ASD/ADHD pathway and									
		gnposted.									
		/irgin Care (East Mendip) the MDT Triage is already part of referral									
	path	•									
		80 referrals received 86% were accepted for ASD/ADHD seessments: 48% Assessed - of those 33% resulted in a diagnosis,									
		2% were found not to have ASD/ADHD and 45% are still									
		ndergoing assessment.									
		il Foundation Trust MDT Triage is due to be in place by April 2021.									
		tional funding is being released to implement county wide MDT									
		e to ensure consistency of offer.									

• Detailed evaluations and patient surveys are being embedded as part of a Plan-Do-Study-Act (PDSA) cycle.

e) Key next steps

- Continue to build on current work to support development of Assessment part of the pathway.
- Continue coproduction workshops and engagement events.
- Current focus on post-assessment offer for ASD and ADHD, and what is working well and where gaps exist.
- Continue Early Years mapping.
- Use outputs to inform joint commissioning.
- Educational Psychology Service.
- Continual review.
- Interim bids and peer review.

f) Areas of Concern / Barriers

- Lack of baseline data available impacts our ability to build milestones or effective metrics into planning. New data reporting arrangements are being designed and implemented and will be reviewed six months from implementation in April 2021.
- Lack of clarity of services available. Also, how they are resourced is not clear of often part of block contracts.
- Relationship between ASD assessment providers is strained which is a barrier to releasing benefits of working collaboratively.
- Reliance on vulnerable services lack parenting support and/or lack of support for children and young people with mental health needs
- Several Early Help services are traded services.
- Digital barriers: how records are captured and shared is fragmented. Logistical and clinical barriers to information sharing exist, especially across boundaries of health, education, social care, local authority.

g) Meas	su	res	(data) to s	support	prog	ress	acro	SS	IP Area	
Increase in the percentage of referrals into the assessment pathway which result in an assessment for ASD or ADHD	71	5	11.00	50.00	%	31 December 2021				On Health Dashboard, awaiting data	Kate Staveley
Percentage of parents/carers of children and young people with SEND answering 'Quite confident' or Very confident' to the question 'Do you feel confident in how to access support in relation to your child's behavioural needs?'	68	5	32.00		%	31 July 2023				360 survey - annual survey, first results d in July 2021	ue Kate Staveley

A2. Written Statement of Action – Change Control

The following changes have been considered either to correct typographical errors in the original document or in light of presenting challenges which have required us to rethink our approach to delivering or measuring the impact of the agreed improvement actions.

Reference	Action	Description of Change Required	Description of Impact	Status
CR001	2.1	Refocussing of activity in IP2.1.4 to reduce reliance on data sets to scope workforce; resetting of delivery timescales to June	Requires realignment of IP2.1.5 & 2.1.7 (establishment of shared workforce 'leadership' development programme) to same June delivery	Approved
CR002	7.8	Inability to break down take up by age group requires a different approach, i.e. use of National Data for measuring take up and a 'test and learn' approach to identify ways to improve awareness and take up of Annual Health Checks (AHC) which now includes a quality assurance element	Evidence of improving health outcomes not expected until Year 2 (No impact identified to other areas of WSoA)	Approved
CR004	n/a	Change to correct target date for achievement of measure for 'Training & Development plan that is sustainable and reflects audit findings; date should have read December 2021 not 2020	(No impact identified to other areas of WSoA)	Approved
CR005	2.2	Extension of deadline to take full account of findings in IP2.1.5 on which this activity has a dependency	Work to mitigate against impact of competition for or scarcity of resource across provider organisations won't be completed until after April 2021 - delivery moves to May-August 2021 (No impact identified to other areas of WSoA)	Approved
CR006	n/a	Changes to wording of measures for IP9 to make more specific	No impact. Enhances the measures to enable tracking of improvement progress	Open

CR007	6.3	Time required for schools to consider options, against backdrop of Covid-19 response, together with adoption of 'Whole Education' peer review programme which is recommended to run in line with academic year requires review of milestones/ timescales for this action	To be confirmed - Change Request pending	Open			
NB. CR003 excluded as no longer required. WSoA Change Control							

A3 Programme Risks and Issues

A3.1 Risks (CC = current controlled risk score)

Statement of Risk/Issue	Owner	Mitigation/ Controls (* = incomplete)	cc
Local Area is unable to deliver SEND improvement effectively and within timeframe agreed	Julian Wooster/ Becky Applewood	Preventative: 1. Joint governance arrangements for SEND. 2. Comms & Engagement plan. 4. IP2.1 & 2.2 Workforce strategy (hazard 7. & 8). 5. IP2.1 & 2.2 development plan (hazard 7. & 8). 6. SEND resources redeployment protocol ('critical' under redeployment criteria). 7. Data team gap analysis of Health data (at SEND level). 8. 'Soft' measures (as indicators of impact) collection and reporting protocol. Detective: 9. Monitor IP4.6 Performance. 11. IP3.1 Audit of arrangements for joint funding. 12. IP4.7 Review of joint financial resources. Collaborative: 13. IPO (delivery) group. 14. Comms & Engagement group. 15. Executive 'enabling' group (hazard 6, 7, & 8). 16. IP3.2 Managing joint programmes of work protocol.	9
Inability to deliver the expectations of children, young people and families as outlined in the written statement of action	Ruth Hobbs	Preventative: 1. Actions in IP1.3 and 1.4 plans (identified to deliver expectations). 2. Engagement plan.	12

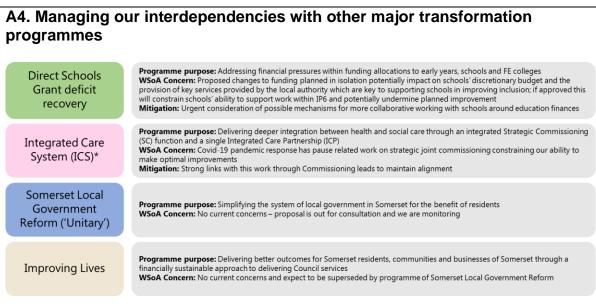

Inability to maintain engagement/communication may reduce commitment of school-based staff to the WSoA.	Amelia Walker	Preventative: 1. Engagement plan in IP6.4 (hazard 1. 2. & 3.) 2. Outreach service 3. Peer-peer support for mainstream schools 4. Schools cell to help with the COVID situation has representation from across the Local Area.	20
Inability to maintain behaviours required to deliver level of change required for WSoA	Melissa Fairhurst/ Marianne King	Preventative: 1. Workforce strategy and plan/ IP2 2. IP2.1 Blame culture analysis. 3. Hampshire legal interim support agreement for SEND Stat Team. Detective: 2. IP3.1 Self-evaluation against SEND Code of Practice 3. Regional Advisor support & challenge	12
Ongoing organisational change	Julian Wooster/ Becky Applewood	Collaborative: 1. Children's Executive Group. Detective: 2. Monitor the development of the ICS 3. Monitor Unitary programme.	9

A3.2 Issues (CC = current controlled risk score)

Statement of Risk/Issue	Owner	Mitigation/ Controls (* = incomplete)	сс
Inability to maintain digital collaboration between partners.	Alison Nation / Sarah Moore (ICT) Rebecca Martin / Kevin Caldwell (IG)	Professional Choices VMR	9

(* incorporating Fit for My Future & NHS Long Term Plan)

A5. Stakeholder Communications and Engagement

The following provides a summary of key communications & engagement activity undertaken since the Written Statement of Action was approved on 30th November 2020.

December 2020 – January 2021:

 Publication on Local Offer with supporting communications including letter to parents, members' briefing, staff briefing, schools' briefing and press/media.

Third Question and Answer Session aimed at professionals - 20th January 2021 (IP5):

- Pre-event comms via <u>Our Somerset</u>, SCC news bulletin to schools and NHS internal newsletters/intranets.
- Supported running the event.
- Post-event communications links to video and slides.
- Parent/Carer events:
 - 2x Question and Answer events with a WSoA focus 18th January 2021.
 - 2x EHCP and outcome focus engagement events 26th January 2021.
- Pre-Assessment Support Coproduction Event (16-17) focus on the ADHD and Autism pre-diagnostic pathway for young people aged 16 and 17.
- Reviewing how best to display WSoA workstream updates on Local Offer.

January 2021 – February 2021:

- IP6 communications to schools regarding update on WSoA and progress via schools' bulletin and Local offer:
 - IP6 Comms Detailed WSoA content uploaded to the Local Offer for information.

- IP6 Information Sheets. More visual summary of information onto the Local Offer webpage.
- SEND WSoA webinar event 10th February 2021 intended as a pre-cursor to the SSIN to socialise the WSoA and ensure people are familiar with it before we go into the interactive event in March. 36 people attended
- ADHD Post-Assessment Co-production Workshop 24th February 2021.
- Autism Post-Assessment Co-production Workshop 3rd March 2021.
- To gain a better understanding of the lived experience and what needs to be in place.
- Effectiveness measured by number and range of attendees, range and quality of feedback.
- Development of local offer WSoA information pages and supporting communications.
- To ensure effective communication of the WSoA progress across the area.
- Effectiveness measured by number of unique page visit.
- Publicity Content for Outcomes Framework Listening to Young People for Parents and Carers.
- Ongoing work to update the SEND Communications & Engagement Strategy and associated activity plans and other documents.
- Social media promoting SEND, surveys and Local Offer website.
- Local Offer ongoing work to update the website.
- Promoting SEND News through new channels including Next Door and PDnet Forum.
- IP6 Promoting NHS number now included on EHCPs.
- IP6.1 Working to support launch communications.

Forward Plan

- IP6.4 Survey to schools ask schools which services could be joined up in this way into a single 'partnership forum'. This part of the WSoA is examining the way in which services are offered / delivered and whether improvements could be made. There are lots of different services available and they all operate individually.
- IP6.1 Inclusion Inquiry communications. Enquiry Launch communications via Schools' bulletin and Parent Carer Leaflet on experiences of education in Somerset to maximise participation to gain a broad range of perspectives on inclusive practice across Somerset.
- SEND WSoA update to Health and Wellbeing Board on Thursday 18th March 2021.
- Somerset SEND Improvement Network 'leadership' event (late April 2021), to engage 'leaders' (key influencers) in driving improvement across area services.
- IP6.4 Working to support communications around standardisation of special school outreach to mainstream schools across Somerset.

Somerset SEND Improvement Board – Monitoring Meeting 16th March 2021
