The contents of this report relate only to the matters which have come to our attention, which we believe need to be reported to you as part of our audit planning process. It is not a comprehensive record of all the relevant matters, which may be subject to change, and in particular we cannot be held responsible to you for reporting all of the risks which may affect the Council or all weaknesses in your internal controls. This report has been prepared solely for your benefit and should not be quoted in whole or in part without our prior written consent. We do not accept any responsibility for any loss occasioned to any third party acting, or refraining from acting on the basis of the content of this report, as this report was not prepared for, nor intended for, any other purpose.

Key matters

National context

For the general population, rising inflation rates, in particular for critical commodities such as energy, food and fuel, is pushing many households into poverty and financial hardship, including those in employment. At a national government level, recent political changes have seen an emphasis on controls on spending, which in turn is placing pressure on public services to manage within limited budgets.

Local Government funding continues to be stretched with increasing cost pressures due to the cost of living crisis, including higher energy costs, increasing pay demands, higher agency costs and increases in supplies and services. Local authority front-line services play a vital role in protecting residents from rising costs; preventing the most vulnerable from falling into destitution and helping to build households long-term financial resilience. At a local level, councils are also essential in driving strong and inclusive local economies, through their economic development functions and measures like increasing the supply of affordable housing, integrating skills and employment provision, and prioritising vulnerable households to benefit from energy saving initiatives. Access to these services remains a key priority across the country, but there are also pressures on the quality of services. These could include further unplanned reductions to services and the cancellation or delays to major construction projects such as new roads, amenities and infrastructure upgrades to schools, as well as pothole filling.

Our recent value for money work has highlighted a number of governance and financial stability issues at a national level, which is a further indication of the mounting pressure on audited bodies to keep delivering services, whilst also managing transformation and making savings at the same time.

In planning our audit, we will take account of this context in designing a local audit programme which is tailored to your risks and circumstances.

Audit Reporting Delays

In a report published in January 2023 the NAO have highlighted that since 2017-18 there has been a significant decline in the number of local government body accounts including an audit opinion published by the deadlines set by government. The NAO outline a number of reasons for this and proposed actions. In March 2023, we issued [About time?](#), which explored the reasons for delayed publication of audited local authority accounts. In our view, it is critical to early sign off that draft local authority accounts are prepared to a high standard and supported by strong working papers.

Council developments

On 1 April 2023 the Council, along with the District Councils for Mendip, Somerset West and Taunton, South Somerset and Somerset County Council transitioned to a single unitary authority. The impact of this reorganisation will be considered as part of our value for money work. We also expect to include an Emphasis of Matter paragraph within our audit report when this is issued.

Key matters

Our Responses

- As a firm, we are absolutely committed to audit quality and financial reporting in the local government sector. Our proposed work and fee, as set out further in our Audit Plan, has been agreed with Somerset Council's S151 Officer, as the successor body.
- We will consider your arrangements for managing and reporting your financial resources as part of our audit in completing our Value for Money work.
- Our value for money work will also consider your arrangements relating to governance and improving economy, efficiency and effectiveness.
- We will continue to provide you and your Audit Committee with sector updates providing our insight on issues from a range of sources and other sector commentators via our Audit Committee updates.
- We hold annual financial reporting workshops for our audited bodies to access the latest technical guidance and interpretation, discuss issues with our experts and create networking links with other audited bodies to support consistent and accurate financial reporting across the sector.

Introduction and headlines

Purpose

This document provides an overview of the planned scope and timing of the statutory audit of Sedgemoor District Council ('the Council') for those charged with governance.

Respective responsibilities

The National Audit Office ('the NAO') has issued a document entitled Code of Audit Practice ('the Code'). This summarises where the responsibilities of auditors begin and end and what is expected from the audited body. Our respective responsibilities are also set out in the agreed in the Terms of Appointment and Statement of Responsibilities issued by Public Sector Audit Appointments (PSAA), the body responsible for appointing us as auditor of Sedgemoor District Council. We draw your attention to both of these documents.

Scope of our audit

The scope of our audit is set in accordance with the Code and International Standards on Auditing (ISAs) (UK). We are responsible for forming and expressing an opinion on the Council group's financial statements that have been prepared by management with the oversight of those charged with governance (the Audit committee); and we consider whether there are sufficient arrangements in place at the Council and group for securing economy, efficiency and effectiveness in your use of resources. Value for money relates to ensuring that resources are used efficiently in order to maximise the outcomes that can be achieved.

The audit of the financial statements does not relieve management or the Audit Committee of your responsibilities. It is the responsibility of the Council to ensure that proper arrangements are in place for the conduct of its business, and that public money is safeguarded and properly accounted for. We have considered how the Council is fulfilling these responsibilities.

Our audit approach is based on a thorough understanding of the Council's business and is risk based.

Introduction and headlines

Significant risks

Those risks requiring special audit consideration and procedures to address the likelihood of a material financial statement error have been identified as:

- management override of controls;
- valuation of land and buildings, including Council Dwellings;
- valuation of investment property; and
- valuation of the pension fund net liability.

We will communicate significant findings on these areas as well as any other significant matters arising from the audit to you in our Audit Findings (ISA 260) Report.

Group Audit

The Council is required to prepare group financial statements that consolidate the financial information of Homes in Sedgemoor.

Materiality

We have determined planning materiality to be £1.535m (PY £1.480m) for the group and £1.485m (PY £1.460m) for the Council, which equates to 2% of your gross operating costs for the year. We are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. Clearly trivial has been set at £75k (PY £73k) for the group and the Council

Value for Money arrangements

We identified a significant weakness in arrangements in 2021-22 in regard to the Council's failure to comply with the requirements of the CiPFA Treasury Management Code and the Treasury Management Strategy was not presented to Council. We will formally follow up in 2022-23. Therefore, our risk assessment regarding your arrangements to secure value for money has identified the following risks of significant weakness:

- Arrangements for transition to the new Unitary Authority.
- Governance arrangements for ensuring compliance with statutory requirements

New Auditing Standards

There are two auditing standards which have been significantly updated this year. These are ISA 315 (Identifying and assessing the risks of material misstatement) and ISA 240 (the auditor's responsibilities relating to fraud in an audit of financial statements). We provide more detail on the work required later in this plan.

Audit logistics

Our planning and our final visit will take place between September and December 2023. Our key deliverables are this Audit Plan, our Audit Findings Report and Auditor's Annual Report.

Our proposed fee for the audit will be £69,709 (PY: £74,959) for the Council, subject to the Council delivering a good set of financial statements and working papers and no significant new financial reporting matters arising that require additional time and/or specialist input.

We have complied with the Financial Reporting Council's Ethical Standard (revised 2019) and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
ISA240 revenue risk - the Council's reported revenue contains fraudulent transactions (rebutted)	All group entities	Under ISA (UK) 240 there is a rebuttable presumed risk that revenue may be misstated due to the improper recognition of revenue. This presumption can be rebutted if the auditor concludes that there is no risk of material misstatement due to fraud relating to revenue recognition.	<p>Having considered the risk factors set out in ISA240 and the nature of the revenue streams at the Council, we have determined that the risk of fraud arising from revenue recognition can be rebutted, because:</p> <ul style="list-style-type: none"> • there is little incentive to manipulate revenue recognition • opportunities to manipulate revenue recognition are very limited • the culture and ethical frameworks of local authorities, including Sedgemoor District Council, mean that all forms of fraud are seen as unacceptable. • The majority of income in subsidiaries is a single source of funding from the Council in the form of a small number of management fees or loan transactions which are easily verifiable. This, along with minimal third party income, means there a limited opportunities to manipulate revenue. <p>Therefore we do not consider this to be a significant risk for Sedgemoor District Council.</p>
The expenditure cycle includes fraudulent transactions (rebutted)	All group entities	<p>Practice note 10: Audit of Financial Statements of Public Sector Bodies in the United Kingdom (PN10) states:</p> <p>“As most public bodies are net spending bodies, then the risk of material misstatements due to fraud related to expenditure may be greater than the risk of material misstatements due to fraud related to revenue recognition.” Public sector auditors therefore, need to consider whether they have any significant concerns about fraudulent financial reporting of expenditure which would need to be treated as a significant risk for the audit</p>	<p>We have considered both pay and non pay costs and considered there to be little opportunity for fraudulent transactions. Pay costs are determined by employee contracts and are standard monthly payments. Non pay costs are based on supplier invoice transactions and have to be paid within a set timeframe.</p> <p>As part of the audit will consider the completeness, accuracy and occurrence of expenditure transactions by:</p> <ul style="list-style-type: none"> • Evaluating the design and implementation effectiveness of the accounts payable process • Testing a sample of transactions incurred around the year end to ensure these have been accounted for in the appropriate financial period • Testing a sample of accruals made at year end that have not yet been invoiced to assess whether the valuation has been calculated on an appropriate basis.

‘Significant risks often relate to significant non-routine transactions and judgmental matters. Non-routine transactions are transactions that are unusual, due to either size or nature, and that therefore occur infrequently. Judgmental matters may include the development of accounting estimates for which there is significant measurement uncertainty.’ (ISA (UK) 315)

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Management override of controls	All entities	<p>Under ISA (UK) 240 there is a non-rebuttable presumed risk that the risk of management override of controls is present in all entities.</p> <p>We therefore identified management override of control, in particular journals, management estimates and transactions outside the course of business as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate the design effectiveness of management controls over journals; • analyse the journals listing and determine the criteria for selecting high risk unusual journals; • test unusual journals recorded during the year and after the draft accounts stage for appropriateness and corroboration; • gain an understanding of the accounting estimates and critical judgements applied made by management and consider their reasonableness with regard to corroborative evidence; and • evaluate the rationale for any changes in accounting policies, estimates or significant unusual transactions.
Valuation of land and buildings (Annual Revaluation)	Council	<p>The group revalue its land and buildings, including HRA properties, on an annual basis to ensure that the carrying value is not materially different from the current value or fair value (for surplus assets) at the financial statements date. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved and the sensitivity of this estimate to changes in key assumptions.</p> <p>Management have engaged the services of a valuer to estimate the current value as at 31 March 2023.</p> <p>We therefore identified valuation of land and buildings, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to the valuation experts and the scope of their work • evaluate the competence, capabilities and objectivity of the valuation expert • discuss with the valuer the basis on which the valuations were carried out • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding • test, on a sample basis, revaluations made during the year to ensure they have been input correctly into the Council's asset register • test, on a sample basis, revaluations of Beacon Properties made during the year to ensure that HRA properties have been appropriately valued and input correctly into the Council's asset register • evaluate the assumptions made by management for any assets not revalued during the year and how management has satisfied themselves that these are not materially different to current value

Significant risks identified

Significant risks are defined by ISAs (UK) as risks that, in the judgement of the auditor, require special audit consideration. In identifying risks, audit teams consider the nature of the risk, the potential magnitude of misstatement, and its likelihood. Significant risks are those risks that have a higher risk of material misstatement.

Risk	Risk relates to	Reason for risk identification	Key aspects of our proposed response to the risk
Valuation of Investment Properties	Council and Aspen Housing & Development Ltd	<p>The Council revalue Investment Properties annually. This valuation represents a significant estimate by management in the financial statements due to the size of the numbers involved (£36.6m) and the sensitivity of this estimate to changes in key assumptions.</p> <p>We therefore identified valuation of Investment Properties, particularly revaluations and impairments, as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • evaluate management's processes and assumptions for the calculation of the estimate, the instructions issued to the valuation experts and the scope of their work • evaluate the competence, capabilities and objectivity of the valuation expert • write to the valuer to confirm the basis on which the valuations were carried out • challenge the information and assumptions used by the valuer to assess completeness and consistency with our understanding. • test, on a sample basis, revaluations made during the year to ensure they have been input correctly into the Authority's asset register
Valuation of the pension fund net liability	Council and Homes in Sedgemoor	<p>The Council's pension fund net liability, as reflected in its balance sheet as the net defined benefit liability, represents a significant estimate in the financial statements.</p> <p>The pension fund net liability is considered a significant estimate due to the size of the numbers involved (£22.2m in its balance sheet) and the sensitivity of the estimate to changes in key assumptions.</p> <p>We therefore identified valuation of the Council's pension fund net liability as a significant risk, which was one of the most significant assessed risks of material misstatement.</p>	<p>We will:</p> <ul style="list-style-type: none"> • update our understanding of the processes and controls put in place by management to ensure that the Council's pension fund net liability is not materially misstated and evaluate the design of the associated controls; • evaluate the instructions issued by management to their management expert (an actuary) for this estimate and the scope of the actuary's work; • assess the competence, capabilities and objectivity of the actuary who carried out the Council's pension fund valuation; • assess the accuracy and completeness of the information provided by the Council to the actuary to estimate the liability; • test the consistency of the pension fund asset and liability and disclosures in the notes to the core financial statements with the actuarial report from the actuary; • undertake procedures to confirm the reasonableness of the actuarial assumptions made by reviewing the report of the consulting actuary (as auditor's expert) and performing any additional procedures suggested within the report; and • obtain assurances from the auditor of Somerset Pension Fund as to the controls surrounding the validity and accuracy of membership data; contributions data and benefits data sent to the actuary by the pension fund and the fund assets valuation in the pension fund financial statements.

Group audit scope and risk assessment

In accordance with ISA (UK) 600, as group auditor we are required to obtain sufficient appropriate audit evidence regarding the financial information of the components and the consolidation process to express an opinion on whether the group financial statements are prepared, in all material respects, in accordance with the applicable financial reporting framework.

Component	Individually Significant?	Level of response required under ISA (UK) 600	Risks identified	Planned audit approach
Sedgemoor District Council	Yes		<ul style="list-style-type: none"> See pages 7 - 9 for significant risks identified for Sedgemoor District Council 	Full scope audit performed by Grant Thornton UK LLP
Homes in Sedgemoor	Yes		<ul style="list-style-type: none"> Management override of controls Valuation of the Pension Fund net liability 	Full scope audit performed by Homes In Sedgemoor to be performed by Bishop Fleming. The nature, time and extent of our involvement in the work of Bishop Fleming will begin with a discussion on risks, guidance on designing procedures, participation in meetings, followed by the review of relevant aspects of the Bishop Fleming audit documentation and meeting with appropriate members of management.
Aspen Housing & Development Ltd	No		<ul style="list-style-type: none"> Valuation of Investment property 	Aspen Housing has one asset that is contained within the group balance sheet. We have included this asset in our PPE work to ensure that is appropriately valued.
Sedgemoor Group Ltd	No		<ul style="list-style-type: none"> No specific risks identified 	Analytical review performed by Grant Thornton UK LLP

Key changes within the group:

There have been no key changes within the Group.

Audit scope

- Audit of the financial information of the component using component materiality
- Audit of one more classes of transactions, account balances or disclosures relating to significant risks of material misstatement of the group financial statements
- Review of component's financial information
- Specified audit procedures relating to risks of material misstatement of the group financial statements
- Analytical procedures at group level

Other matters

Other work

In addition to our responsibilities under the Code of Practice, we have a number of other audit responsibilities, as follows:

- We read your Narrative Report and Annual Governance Statement to check that they are consistent with the financial statements on which we give an opinion and our knowledge of the Council.
- We carry out work to satisfy ourselves that disclosures made in your Annual Governance Statement are in line with requirements set by CIPFA.
- We carry out work on your consolidation schedules for the Whole of Government Accounts process in accordance with NAO group audit instructions.
- We consider our other duties under legislation and the Code, as and when required, including:
 - giving electors the opportunity to raise questions about your 2022/23 financial statements, consider and decide upon any objections received in relation to the 2022/23 financial statements;
 - issuing a report in the public interest or written recommendations to the Council under section 24 of the Local Audit and Accountability Act 2014 (the Act).
 - application to the court for a declaration that an item of account is contrary to law under section 28 or a judicial review under section 31 of the Act
 - issuing an advisory notice under section 29 of the Act
- We certify completion of our audit.

Other material balances and transactions

Under International Standards on Auditing, 'irrespective of the assessed risks of material misstatement, the auditor shall design and perform substantive procedures for each material class of transactions, account balance and disclosure'. All other material balances and transaction streams will therefore be audited. However, the procedures will not be as extensive as the procedures adopted for the risks identified in this report.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

Matter	Description	Planned audit procedures
1	Determination We have determined financial statement materiality based on a proportion of the gross expenditure of the group and Council for the financial year. Materiality at the planning stage of our audit is £1.535m (group) and £1.485m (Council), which equates to 2% of your gross expenditure for the period.	We determine planning materiality in order to: <ul style="list-style-type: none">– establish what level of misstatement could reasonably be expected to influence the economic decisions of users taken on the basis of the financial statements– assist in establishing the scope of our audit engagement and audit tests– determine sample sizes and– assist in evaluating the effect of known and likely misstatements in the financial statements
2	Reassessment of materiality Our assessment of materiality is kept under review throughout the audit process.	We reconsider planning materiality if, during the course of our audit engagement, we become aware of facts and circumstances that would have caused us to make a different determination of planning materiality.
3	Other communications relating to materiality we will report to the Audit Committee Whilst our audit procedures are designed to identify misstatements which are material to our opinion on the financial statements as a whole, we nevertheless report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. Under ISA 260 (UK) 'Communication with those charged with governance', we are obliged to report uncorrected omissions or misstatements other than those which are 'clearly trivial' to those charged with governance. ISA 260 (UK) defines 'clearly trivial' as matters that are clearly inconsequential, whether taken individually or in aggregate and whether judged by any quantitative or qualitative criteria.	We report to the Audit Committee any unadjusted misstatements of lesser amounts to the extent that these are identified by our audit work. In the context of the Group and Council, we propose that an individual difference could normally be considered to be clearly trivial if it is less than £75k (PY £73k). If management have corrected material misstatements identified during the course of the audit, we will consider whether those corrections should be communicated to the Audit Committee to assist it in fulfilling its governance responsibilities.

Our approach to materiality

The concept of materiality is fundamental to the preparation of the financial statements and the audit process and applies not only to the monetary misstatements but also to disclosure requirements and adherence to acceptable accounting practice and applicable law.

	Amount (£)	Qualitative factors considered
Materiality for the Council financial statements	1,485,000	This is equivalent to approximately 2% of the gross expenditure of the Council for the financial year, and is the same percentage and measure as the previous year.
Performance materiality	1,110,000	We have determined performance materiality at 75% of the materiality. Our rationale is as follows: <ul style="list-style-type: none">• Senior management and key reporting personnel in the finance function have remained stable from the prior year audit.• There were a low number of misstatements and recommendations arising as a result of the financial statements audits in the prior years so we have a considered 75% remains appropriate
Trivial matters	75,000	Set at 5% of materiality.

IT audit strategy

In accordance with ISA (UK) 315 Revised, we are required to obtain an understanding of the relevant IT and technical infrastructure and details of the processes that operate within the IT environment. We are also required to consider the information captured to identify any audit relevant risks and design appropriate audit procedures in response. As part of this we obtain an understanding of the controls operating over relevant Information Technology (IT) systems i.e., IT general controls (ITGCs). Our audit will include completing an assessment of the design and implementation of relevant ITGCs. We say more about ISA 315 Revised on slide 18.

The following IT systems have been judged to be in scope for our audit and based on the planned financial statement audit approach we will perform the indicated level of assessment:

IT system	Audit area	Spend/Income	Planned level IT audit assessment
Civica Financials	Financial reporting	£20,630k	<ul style="list-style-type: none">Streamlined ITGC design assessment
Revs and Bens	Council Tax, Business Rates and Benefits	£17,275k	<ul style="list-style-type: none">Streamlined ITGC design assessment
Frontier	Payroll	£22,245k	<ul style="list-style-type: none">Streamlined ITGC design assessment
Active Directory	Network	N/A	<ul style="list-style-type: none">Streamlined ITGC design assessment

Value for Money arrangements

The National Audit Office issued its latest Value for Money guidance to auditors in January 2023. The Code expects auditors to consider whether a body has put in place proper arrangements to secure economy, efficiency and effectiveness in its use of resources. Auditors are expected to report any significant weaknesses in the body's arrangements, should they come to their attention. In undertaking their work, auditors are expected to have regard to three specified reporting criteria. These are as set out below:

Improving economy, efficiency and effectiveness

How the body uses information about its costs and performance to improve the way it manages and delivers its services.

Financial Sustainability

How the body plans and manages its resources to ensure it can continue to deliver its services.

Governance

How the body ensures that it makes informed decisions and properly manages its risks.

Potential types of recommendations

A range of different recommendations could be made following the completion of work on risks of significant weakness, as follows:

Statutory recommendation

Written recommendations to the body under Section 24 (Schedule 7) of the Local Audit and Accountability Act 2014. A recommendation under schedule 7 requires the body to discuss and respond publicly to the report.

Key recommendation

The Code of Audit Practice requires that where auditors identify significant weaknesses in arrangements to secure value for money they should make recommendations setting out the actions that should be taken by the body. We have defined these recommendations as 'key recommendations'.

Improvement recommendation

These recommendations, if implemented should improve the arrangements in place at the body, but are not made as a result of identifying significant weaknesses in the body's arrangements

Risks of significant VFM weaknesses

As part of our planning work, we considered whether there were any risks of significant weakness in the body's arrangements for securing economy, efficiency and effectiveness in its use of resources that we needed to perform further procedures on. The risks we have identified are detailed below, along with the further procedures we will perform. We may need to make recommendations following the completion of our work.

Risks of significant weakness

Those risks requiring audit consideration and procedures to address the likelihood that proper arrangements are not in place at the body to deliver value for money.

Arrangements for transition to the new Unitary Authority

Local Government reorganisation in Somerset has resulted in the end to the current two-tier system from 1 April 2023, with a single Unitary Authority taking responsibility for service delivery across the county. There is a risk that appropriate arrangements were not in place to support a successful transition.

To address the risk we will undertake the following work:

- consider the arrangements that were put in place during 2022-23 to support a successful transition across key financial and governance workstreams; and
- assess how the Council worked with its partners to support the change as at 1 April 2023

We anticipate being able to achieve this by reviewing meeting papers and minutes and interviewing those officers responsible for transition workstreams

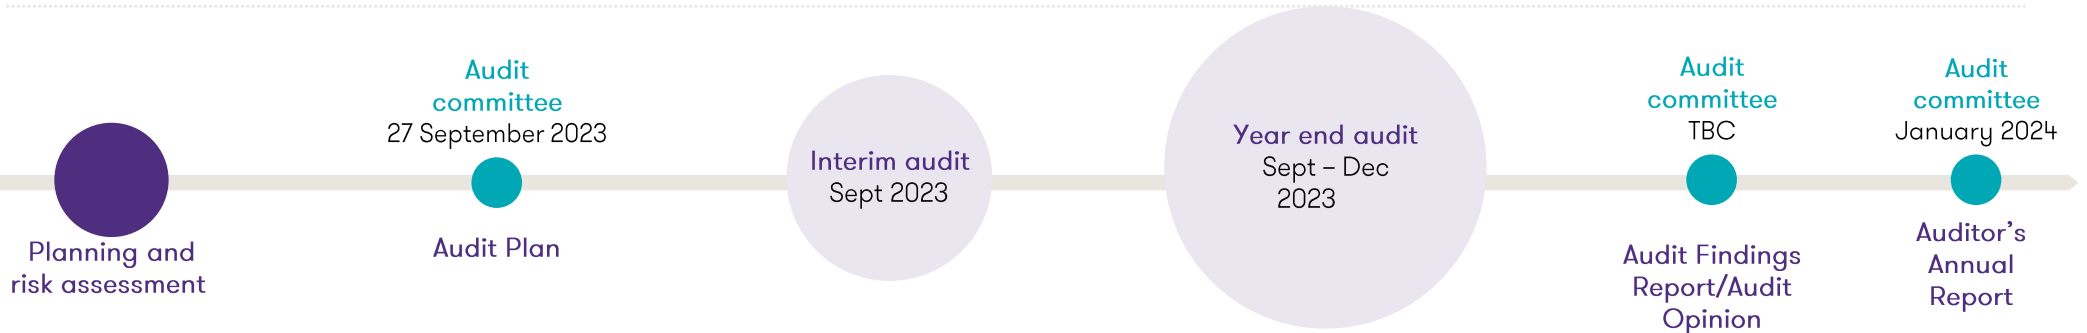

Treasury Management Strategy

The 2021-22 AAR identified a significant weakness in relation to compliance with the CiPFA Treasury Management Code and management's failure to submit the Treasury Management Strategy to Council for approval. This remains a risk in 2022-23 and we will:

- Review arrangements in place for ensuring that formal approval of the Treasury Management Strategy has been provided in line with the requirements of the Code.

We anticipate being able to achieve this by review of meeting minutes and management's governance processes

Audit logistics and team

Julie Masci, Key Audit Partner

Julie leads our relationship with you and is a key contact for the Chief Executive, Director of Resources and the Audit Committee. Julie takes overall responsibility for the delivery of a high quality audit, meeting the highest professional standards and adding value to the Council.

David Johnson, Audit Manager

David's role involves overseeing the day to day planning and execution of the audit, ensuring the audit requirements are fully complied with and producing reports for the Audit Committee. He will respond to ad-hoc queries whenever raised and meet regularly with the Director of Resources and members of the finance team.

Audited Entity responsibilities

Where audited bodies do not deliver to the timetable agreed, we need to ensure that this does not impact on audit quality or absorb a disproportionate amount of time, thereby disadvantaging other audited bodies. Where the elapsed time to complete an audit exceeds that agreed due to an entity not meeting its obligations we will not be able to maintain a team on site. Similarly, where additional resources are needed to complete the audit due to an entity not meeting their obligations we are not able to guarantee the delivery of the audit to the agreed timescales. In addition, delayed audits will incur additional audit fees.

Our requirements

To minimise the risk of a delayed audit, you need to :

- ensure that you produce draft financial statements of good quality by the deadline you have agreed with us, including all notes, the Narrative Report and the Annual Governance Statement
- ensure that good quality working papers are available at the start of the audit, in accordance with the working paper requirements schedule that we have shared with you
- ensure that the agreed data reports are available to us at the start of the audit and are reconciled to the values in the accounts, in order to facilitate our selection of samples for testing
- ensure that all appropriate staff are available on site throughout (or as otherwise agreed) the planned period of the audit
- respond promptly and adequately to audit queries.

Audit fees and updated Auditing Standards including ISA 315 Revised

In 2017, PSAA awarded a contract of audit for Sedgemoor District Council to begin with effect from 2018/19. The fee agreed in the contract was £42,358. Since that time, there have been a number of developments, particularly in relation to the revised Code and ISA's which are relevant for the 2022/23 audit. For details of the changes which impacted on years up to 2021/22 please see our prior year Audit Plans.

The major change impacting on our audit for 2022/23 is the introduction of ISA (UK) 315 (Revised) - Identifying and assessing the risks of material misstatement ('ISA 315'). There are a number of significant changes that will impact the nature and extent of our risk assessment procedures and the work we perform to respond to these identified risks. Key changes include:

- Enhanced requirements around understanding the Council's IT Infrastructure, IT environment. From this we will then identify any risks arising from the use of IT. We are then required to identify the IT General Controls ('ITGCs') that address those risks and test the design and implementation of ITGCs that address the risks arising from the use of IT.
- Additional documentation of our understanding of the Council's business model, which may result in us needing to perform additional inquiries to understand the Council's end-to-end processes over more classes of transactions, balances and disclosures.
- We are required to identify controls within a business process and identify which of those controls are controls relevant to the audit. These include, but are not limited to, controls over significant risks and journal entries. We will need to identify the risks arising from the use of IT and the general IT controls (ITGCs) as part of obtaining an understanding of relevant controls.

These are significant changes which will require us to increase the scope, nature and extent of our audit documentation, particularly in respect of your business processes, and your IT controls. We will be unable to determine the full fee impact until we have undertaken further work in respect of the above areas. However, for an authority of your size, we estimate an initial increase of £3,000. We will let you know if our work in respect of business processes and IT controls identifies any issues requiring further audit testing. There is likely to be an ongoing requirement for a fee increase in future years, although we are unable yet to quantify that.

The other major change to Auditing Standards in 2022/23 is in respect of ISA 240 which deals with the auditor's responsibilities relating to fraud in an audit of financial statements. This Standard gives more prominence to the risk of fraud in the audit planning process. We will let you know during the course of the audit should we be required to undertake any additional work in this area which will impact on your fee.

Taking into account the above, our proposed work and fee for 2022/23, as set out below, is detailed overleaf [and has been agreed with the Director of Finance].

Audit fees

	Actual (or estimated) Fee 2021/22	Proposed fee 2022/23
Council Audit	£74,959	£69,709
Total audit fees (excluding VAT)	£74,959	£69,709

Assumptions

In setting the above fees, we have assumed that the Council will:

- prepare a good quality set of accounts, supported by comprehensive and well-presented working papers which are ready at the start of the audit
- provide appropriate analysis, support and evidence to support all critical judgements and significant judgements made during the course of preparing the financial statements
- provide early notice of proposed complex or unusual transactions which could have a material impact on the financial statements.

Relevant professional standards

In preparing our fee estimate, we have had regard to all relevant professional standards, including paragraphs 4.1 and 4.2 of the FRC's [Ethical Standard \(revised 2019\)](#) which stipulate that the Engagement Lead (Key Audit Partner) must set a fee sufficient to enable the resourcing of the audit with partners and staff with appropriate time and skill to deliver an audit to the required professional and Ethical standards.

Audit fees – detailed analysis

Revised scale fee published by PSAA	£49,859
Additional audit requirements relating to journals and grants testing	£3,000

Increased audit requirements of ISA315 revised	£3,000
Group audit	£1,500
Additional Collection fund testing	£750
Payroll change of circumstances testing	£500
Total proposed audit fees 2022/23 (excluding VAT)	£69,709

Independence and non-audit services

Auditor independence

Ethical Standards and ISA (UK) 260 require us to give you timely disclosure of all significant facts and matters that may bear upon the integrity, objectivity and independence of the firm or covered persons. relating to our independence. We encourage you to contact us to discuss these or any other independence issues with us. We will also discuss with you if we make additional significant judgements surrounding independence matters.

We confirm that there are no significant facts or matters that impact on our independence as auditors that we are required or wish to draw to your attention. We have complied with the Financial Reporting Council's Ethical Standard and we as a firm, and each covered person, confirm that we are independent and are able to express an objective opinion on the financial statements.. Further, we have complied with the requirements of the National Audit Office's Auditor Guidance Note 01 issued in May 2020 which sets out supplementary guidance on ethical requirements for auditors of local public bodies.

We confirm that we have implemented policies and procedures to meet the requirements of the Ethical Standard. For the purposes of our audit we have made enquiries of all Grant Thornton UK LLP teams providing services to the Council.

Independence and non-audit services

Other services

The following other services provided by Grant Thornton were identified.

The amounts detailed are fees agreed to-date for audit related and non-audit services to be undertaken by Grant Thornton UK LLP in the current financial year. These services are consistent with the Council's policy on the allotment of non-audit work to your auditors. Any changes and full details of all fees charged for audit related and non-audit related services by Grant Thornton UK LLP and by Grant Thornton International Limited network member Firms will be included in our Audit Findings report at the conclusion of the audit.

None of the services provided are subject to contingent fees.

Service	Fees	Threats	Safeguards
Non-Audit related			
Agreed upon procedures on the Pooling of Housing Capital receipts return	£7,500	Self-Interest (because these are recurring fees) Self review (because the financial information in the returns are included within the Council's financial statements)	The level of recurring fees taken on their own and in totality are not considered a significant threat to independence as the when compared to the total fee for the audit and in particular are not significant relative to Grant Thornton UK LLP's turnover overall. Further, they are fixed fees and there are no contingent elements.
Agreed upon procedures on the Housing Benefits subsidy claim	£30,000*	Management (because we may make recommendations to management)	We do not prepare the returns which we are auditing and do not expect material misstatements to the financial statements to arise from this work. The factual accuracy of our report, including any representations from management, are agreed with informed management. These factors all mitigate the perceived threats to an acceptable level.

*Final Housing Benefit fee is still subject to agreement. Estimated fee is based on expected level of work required to complete audit.

Communication of audit matters with those charged with governance

Our communication plan	Audit Plan	Audit Findings	
Respective responsibilities of auditor and management/those charged with governance	•		<p>ISA (UK) 260, as well as other ISAs (UK), prescribe matters which we are required to communicate with those charged with governance, and which we set out in the table here.</p> <p>This document, the Audit Plan, outlines our audit strategy and plan to deliver the audit, while the Audit Findings will be issued prior to approval of the financial statements and will present key issues, findings and other matters arising from the audit, together with an explanation as to how these have been resolved.</p> <p>We will communicate any adverse or unexpected findings affecting the audit on a timely basis, either informally or via an audit progress memorandum.</p> <p>Respective responsibilities</p> <p>As auditor we are responsible for performing the audit in accordance with ISAs (UK), which is directed towards forming and expressing an opinion on the financial statements that have been prepared by management with the oversight of those charged with governance.</p> <p>The audit of the financial statements does not relieve management or those charged with governance of their responsibilities.</p>
