Risks	
What is the risk status of the proposal?	Medium
What are the risks associated with this proposal?	
Energy pricing remains volatile - the saving has been calculated based on the latest available forecast of electricity pricing from Crown Commercial Services, our corporate contract provider.	
Are there mitigations or actions that if implemented can reduce those risks?	
A review and update to the value of the saving in January 2024 would reduce the risk of volatility in the 2024/25 budget.
