

Appendix 3 – Representation

The noise of people sitting and drinking in an outdoor environment and such noise travelling to my house until 11.30 p.m. I am unsure as to the outside seating area construction – certain structures can amplify this.

Noise pollution – of vehicles leaving the premises late at night, car doors slamming, headlights flashing [REDACTED]. [REDACTED]
[REDACTED]

Prevention of crime and disorder – The immediate area around the Cafe is not an area subject to much local scrutiny/or overlooking and alcohol fuelled patrons will be able to behave in any manner they want hidden from public view; [REDACTED]
[REDACTED]

Later hours of alcohol sales would be very likely to increase the cumulative stress of noise and nuisance to me.

[REDACTED]
