Summary / Link to Council Plan

1. The Internal Audit function plays a central role in corporate governance by providing assurance to the Audit Committee, looking over governance, risk, and internal controls and checking on the probity of the organisation.
2. The 2024-25 Annual Internal Audit Plan is to provide independent and objective assurance on SC's Internal Control Environment. This work will support the Annual Governance Statement.
3. Delivery of the corporate objectives requires strong governance and risk management and effective internal controls. The Internal Audit Plan seeks to provide independent and objective assurance on matters relating to governance, risk and control processes that ultimately ensures delivery of statutory services and corporate aims and objectives.

Issue for Consideration / Recommendations

4. Members of the Audit Committee are asked to note the position of the 2024-25 Internal Audit Plan and consider any significant governance, risk and control weaknesses identified (See Attached Appendix – SWAP Report).

Financial and Risk Implications

5. Any large organisation needs to have well-established and systematic risk management framework in place to identify and mitigate the risks it may face. SC has a risk management framework, and within that, individual internal audit reports deal with the specific risk issues that arise from the findings. These are translated into mitigating actions and timetable for management to implement. Areas of specific

weakness and risk are flagged within the attached SWAP Internal Audit Progress Report 2024-25.

Legal Implications

6. There are no specific legal issues relating to this report.
